

BEST GAMBLING SYSTEM.

The One That Will Surely Beat Faro and Roulette.

"Every confirmed gambler in the world has spent more or less time trying to figure out some system to beat the game," said a well known northern sporting man.

"I was at Monte Carlo last spring," continued the speaker, "and was surprised at the number of touts who infested the grounds peddling 'sure thing' systems to break the bank.

"Nearly all of these systems are based on progression and would be impossible in high play owing to the casino limit. Nevertheless I saw a number of small progression players at the tables and was told that they have been a fixture there for many years.

"In the days of open gambling in New Orleans I remember there used to be several broken down sports who were said to make a living off the games by 'progression playing.' I have my doubts about it, however.

THERE WASN'T ANY ROW. It Was Simply a Case of Spontaneous Combustion. He was a very young man, almost too young to be out on the street at that time of the night, 8:30 p. m., and his general appearance indicated that he had been picked up by a cyclone somewhere during his meanderings.

"Gee!" he exclaimed as he spun around the corner and went bump into a policeman. "Hello," ejaculated that worthy, instinctively grabbing at him: "what's the row?"

"There wasn't any," responded the youth. "What are you running like that for?" persisted the policeman. "I've just been up against a case of spontaneous combustion."

"You look too green to burn," chuckled the bluecoat. "It's on me, just the same. My girl lives around the corner, and I went to see her. I thought it was all!"

"Oh, excuse me," apologized the policeman, "you run along home and get into your trundle bed!" and the bluecoat gently wadded the remnant on its way.
