Divorce in Burmah.

There is something to be said for Burmah. If the Burmese husband and the Burmese wife come to the con-clusion that they have injudiciously increased the marriage rate their procedure is simple and direct. The wife cedure is simple and direct. The wife does not go to her solicitor, but to the tallow chandler. From him she ob-tains two little candles. These she brings home, and she and husband sit down on the floor, placing the candles between them. One candle represents the husband one the wife. They are lighted at the same moment They are lighted at the same moment and the owner of the one which goes out first leaves the house, taking only out first leaves the house, taking only his or clothes, while the owner of the more enduring candle remains, also the owner of the house and all that therein is. Thus divorce becomes simple and charming. It will be ob-served that the wife always selects the candles.—Chicago Law Journal.

A Reserve Army.

The War Department has at last matured plans for giving the Army of the United States a reserve similar to that of European military establishments. The plan, which will be presented to Congress at its next lost much of their force. The pews session, involves the creation of a "Reserve," consisting, in the first place, of discharged Regular soldiers of able body and good record, whose names will be placed on the rolls of the War Department as ready to re-spond to a call and who will receive pay at the rate of \$3 a month. This, it is calculated, will make a body of 40,000 trained, disciplined men who could immediately raise the war-strength of the Army to 100,000. There will be in addition a "Nation-al Reserve" of 100,000 men of military some form of organization, probably mostly in the National Guards. These will receive a small sum yearly of. say, \$2. With other National Guards and militia kept in readiness the total available strength of the army for any emergency will be 250,000 men. This will give a fighting strength of tional Tribune.

Putting aside for the moment the argument that the ministry is a sacred inally among the Jews for the training calling, and judging it simply as a and the spirit of the priesthood, and profession, there is an earthly, a selfish, side to it that it is not wise to leave out of view.

About 100 years ago a great effort was made in this country to arouse refifty theological schools in the country; ligious enthusiasm in many ways. Educational societies and beneficiary foundations were provided, college men were asked why they should not and did not enter the ministry; and, as a And these regulations have been prac result, there was a suddenly increased number of clergymen. Tribute to the Standard.

Even the Italian religious festivals now pay dividends to the Standard Oil company. At these festivals thou-sands of pounds of candles are burned annually to the different saints. These candles were formerly made by Italians and they were really works of art. Of late years, however, Standard Oil company has supplied a large part of them. They are made of yellow wax, but

instead of being cast in a mould as are ordinary candles, they are made hood until thirty years of age, and large funds were set apart for the maintenance of the priest in both his by flattening the wax into thin lay ers and rolling the wax into thin lay-ers and rolling the layers into candle form. WORKING WOMEN

Their Hard Struggle Made Easier-Interesting Statements by a Young Lady in Boston and One in Nashville, Tenn.

All women work; some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.
