AN X-RAY PICTURE OF THE NEW-YORK LIFE.

ALEXANDER E. ORR, President.

Preliminary Figures for 1905 Showing the Company's Strength and Character . . .

PLEASE, everybody, study the balance sheet and other information concerning the results of 1905. The full Annual Detailed statement will not be out for a few days; meanwhile, this vivid picture of the Company's financial condition will furnish you many convincing arguments, many strong talking points. Bookkeeping statements are not always plain; not always interesting; even sometimes difficult to understand. But these figures are quite the opposite in all these respects.

Note that the Company does not include in the item of Bonds owned, aggregating \$317,000,000, book value, the excess in total market value of said bonds over total book value amounting to \$5,448,472.

Another thought—the chartered accountants, Messrs. Price, Waterhouse & Co., London, and Haskins & Sells, New York, are outsiders, in no way connected with the New-York Life, employed by the Board of Trustees to ascertain its financial condition from unbiased standpoints. Their work is not yet finished, but their certificate as to the Bonds owned and their value, is conclusive evidence. If you were about to become interested in the great firm of Marshall Field & Co., Chicago, or The H. B. Claffin Co., New York, you'd want an expert bookkeeper's opinion of the firm's financial condition. Here you have expert testimony in respect to the enormous bond holdings of over 317 Million Dollars, belonging to the policyholders of the New-York Life.

Concerning the work they have already accomplished, they have made the following certificate:

TO THE NEW-YORK LIFE INSURANCE COMPANY, New York:

Under instructions received from the Committee appointed by the Trustees to investigate the affairs of this Company, we are conducting an examination and audit of its accounts for the last calendar year, and are preparing a statement of its financial condition as of December 31, 1905.

We have at this date verified the following assets:

Investments in Bonds—We have examined and counted \$272,465,225.19 par value of the Bonds owned by the Company deposited in the vaults at the Home Office, and have inspected the documentary evidence in the Company's possession of additional Bonds deposited with the State and foreign governments, amounting to \$46,585,842.99 par value. These will in due course be verified by certificates which the custodians have been requested to furnish.

The total par values of these bonds is \$319,051,068.18; the book value is \$317,996,895.44, and the market value, which we have verified, is \$323,445,367.62.

Mortgage Loans on Real Estate—We have compared the Real Estate Loans on Mortgage with the documents on file, consisting of the Bond and Mortgage given by the mortgagor. These loans amount to \$25,586,644.21.

Loans on Collateral—We have examined the Collateral or Certificates of Depositories therefor held by the Company to secure these loans, which amount to \$3,250,000. The market value of the securities deposited amounts to \$4,242,900.
