Letter to I. Goldstein, Patton, Pa.

Dear Sir: When you see a well dressed man you like to say: "There's a sample of my clothes. That man is worth two of himself as he was when he came to me."

We have the same feeling. Our paint on a house is worth twice as much as old fashion painter's paint, lead and oil. It looks the same when first put on. In three months it don't. In three years it decidedly don't. Lead and oil chalks off in three years; it is considered a first rate job that lasts three years.

Devoc lead and zink is about as good in three years as it was the day the painter left it.

Zink is the secret of it; no secret at all. A good many painters know zink; some mix it in with their lead. We grind it in; not a little; good deal. It's the zink and the grinding that does it. You can't mix zink by hand. We grind it in by machinery.

Painters are finding us out, though some painters are slow.

You know that it pays a good man to wear good clothes. How many customers have you that know it?

Yours truly, F. W. DEVOE & Co.

P. S. Binder & Starrett sell our paint.
