**HARMFUL STOMACH DOSING.**

No Need of It When Hyomei is Used to Cure Catarrh.  
Do not try to cure catarrh of the head by dosing the stomach.  
This is neither common sense nor scientific, as the less medicine one swallows the better.  
To cure catarrhal troubles, breathe the healing Hyomei and the medication will go right to the spot where the catarrhal germs are present, and free the system from all catarrhal poison.  
O. F. Wolf has seen so many cures of catarrh made by Hyomei, some of them chronic cases, that he gives an absolute guarantee of cure or money will be refunded with every outfit he sells.  
The complete Hyomei outfit costs but \$1, while extra bottles of Hyomei if needed are but 50 cents.

**Samuel Gompers, President of the American Federation of Labor, Says of John M. Reynolds.**  
Washington, D. C., Oct. 8, 1906.  
"The only opportunity that Congressman John M. Reynolds had to demonstrate his friendliness to labor in the last session of congress was on the bill which nullified the eight hour law in the construction of the Panama canal, and on this bill he was recorded as voting to nullify the eight hour law in the construction of that work."  
(Signed) SAMUEL GOMPERS, Pres. American Federation of Labor.  
The above is an extract from a letter of the noted labor leader, Samuel Gompers. John M. Reynolds a foe to the eight hour law in the Panama zone is surely in principle a foe to the eight hour law in the states.  
Extracts from letter of October 3rd, 1906, of President Shibley, of National Federation for People's Rule, which is also endorsed by Samuel Gompers, president American Federation of Labor:  
"We thank you for your favorable reply to our questions and enclose several copies of report. Your splendid attitude and the autocratic position taken by your opponent (John M. Reynolds) ought to elect you (Joseph E. Thropp)."

**MINERS READ WHAT**

**Employees of Joseph E. Thropp Say—These Letters are Genuine—Originals Can be Produced.**  
Six Mile Run, Bedford County, Pa. Oct. 7th, 1906.

**DEAR SIR:—**  
During the trouble at Kearney mine, under the management of Joseph E. Thropp, has been unjustly stated. At that time the K. of L. was in power at his mine and the families evicted never lost an article as was stated. As soon as Mr. Thropp found out the true situation of affairs, reinstated all the families back into their houses, also gave them back their jobs that wanted them back. The families all returned but one or two. When during this time some of the men joined the U. M. W. of A. and then the K. of L. objected to them working there, this causing more trouble. Mr. Thropp said he would not recognize the K. of L., but would the U. M. W. of A., which was instituted at that place and since everything has been going quietly and as good wages paid as at any coal or coke plant in the state.  
Hoping this will help you out,  
E. R. FLUKE.

**Kearney, Pa., October 26th, 1906.**  
**DEAR SIR:—**  
There is quite a rumor over the country in regards to Mr. Thropp being a hard man to work for and that he is hard on his men. I can truthfully say it is not so, as I have been living in and near Kearney since he owned that plant, and he always has paid the highest price for his work and treated his men with respect as far as possible. Furthermore, Mr. Thropp is the best friend to the laboring people that there is in the country.  
Yours respectfully,  
AARON BARTON.  
Kearney, Bedford Co., Pa. October 5th, 1906.

**DEAR SIR:—**  
I take the pleasure of dropping you a few lines to let you know that we heard up here that there is people out through the country trying to make the people believe that Mr. Joseph E. Thropp set the people out of the houses and sold their furniture in 1901.  
I say that you can condemn that talk as I was here, and it is a lie. It was the K. of L. They went too far in wanting something that was unreasonable. The miners got tired of staying out for nothing and went to work and organized the Mine Workers.  
The men was all reinstated and got their work back. You can rely on this as true as I can prove it.  
Yours truly,  
CHAS. BOOKHAMER.

**THE COFFIELD POWER WASHER**

Will turn out your washing with less labor, in less time, and in better condition than is possible in any other way.

The work is turned out in the very finest condition, regardless of whether the laundress is a good one or otherwise. It is not only a question of time and labor required to do the rubbing on the wash board, but it is the wear on the clothes that makes washing expensive when done in that old fashioned way. Many a washboard has had the metal corrugations worn entirely through in this process, and that the clothes were damaged in the same operation goes without saying.  
Especially are the finer fabrics damaged in the other methods of washing, and by the saving of wear on the clothes the Power Washer pays for itself several times over each year.
