Advertising

consists simply in presenting before the people the goods you have to sell in an intelligent manner, whether it is a house and lot or a pair of shoes. It is too late at this day to expatiate on the merits of advertising. That has been demonstrated so often that iteration is futile. Everybody now days knows that advertising pays. The main question is, what medium to use? Advertising experts long ago settled it by declaring that newspaper advertising was by far the most effective and brings better returns than any other extant. The merchants of this section long ago declared that better results were obtained by using the Courier than by any other means. It is read every week by hundreds of families and goes into the homes of the majority of the people of Northern Cambria county. The rates are low, just and equitable—one price to all and the small advertiser gets just as good

a rate as the large one. If your business needs a tonic, come in and let us talk the matter over with you or send us word and we will have a representative call on you and explain everything about our plan. You may do business without advertising, but you are certain to do more by advertising. It is an investment that will repay you an hundred fold.

We will prepare your copy and take complete charge of your advertis-ing campaign, however large or small, without, extra cost.

The Courier,

Patton, Pa. July 23rd, 1906.
