NEW COMMISSIONERS

INSPECT COURTHOUSE
A few days ago the new Board of County Commissioners made a tour of inspection of the courthouse. They were accompanied by their Chief Clerk, Lester Larimer. Neither Mr. Hefley or Mr. Baumgardner had ever inspected the courthouse with a view to looking into the necessity for additions and some means for providing greater room. The inspection tour was made from the basement to the tower, but what conclusion the new Board of County Commissioners came to, if any, was not announced.

The bids on the Gordon plans will be opened February 25. These plans provide for the building of the three wings to the courthouse recommended by the advisory Board and approved by the Court.

GERMANY ADVISED TO MEET U. S. DEMANDS

Count Bernstorff Reaches Tentative Agreement With Secretary Lansing. Washington, Jan. 27.—Count von Bernstorff, the German ambassador, has advised his government to accept the views of the United States regarding what is essential to a satisfactory settlement of the Lusitania controversy.

The message to his government was sent by the ambassador following a thirty-five-minute conference with Secretary Lansing. Along with the recommendation went a memorandum prepared at the conference, which Secretary Lansing informed the ambassador represented what the secretary declared to be necessary to a settlement, but was acceptable to the ambassador himself. Therefore the ambassador was able to assure Mr. Lansing he would use his best endeavors to persuade the Berlin foreign office to approve it.

Should this be the case the reply from Berlin is likely to be a formal note to the American government embodying all the concessions demanded.

COLOMBIAN TREATY UP

Senate Will Debate Proposed Concessions to South American Republic. Washington, Jan. 27.—The senate committee on foreign relations has agreed to take a vote next Wednesday on reporting the Colombian treaty to the senate.

This treaty has been pending since the last congress, when it was held up by senators who were opposed to making a public declaration that the United States had done wrong in acquiring the canal zone. Opposition was also shown to a proposal to pay \$25,000,000 to Colombia by way of reparation.

The Colombian treaty will go to the senate and the fight there over its ratification promises to be exceedingly interesting.

JAPAN RENEWS DEMANDS

Seven of Proposals to China Are Presented in New Note.

London, Jan. 27.—The Japanese government has presented to the Chinese minister at Tokio for transmission to his government a note renewing seven of the demands which were included in the Japanese program last spring, but dropped because of protest, according to the Manchester Guardian. The papers' information comes from Far Eastern sources.

The paper expresses a hope that the news may be "authoritatively contradicted," since the demands when previously presented endangered China's independence and tended to place her under the tutelage of Japan.

NEWS OF TWENTY-ONE YEARS AGO

From Paper January 10th 1895
A Financial Success

The fair, festival and dance given by the Patton Fire Company, which closed on New Year's night, was a success in every respect and the company feels elated to think that they can pay off all the indebtedness but \$100 and have a building worth at least \$1,000 for their hose cart and apparatus.

The building was begun in May 1894, and is 60x40 feet, two stories high. A good part of the work and lumber was donated by members of the company.

At the beginning of the holiday festivities the company still owed \$100, and now they owe only \$100, which can soon be paid off.

Great credit is due the ladies of Patton who worked so hard to make the fair pair a success and when they had paid their bills they had the snug sum of \$115 to turn over to the company.

The watch contestants are also to be congratulated on the amount of money they turned into the company. Both young ladies were presented with nice gold watches.

We wish to return our sincere thanks to the ladies, to Mr. E. A. Meilon for the use of the Opera House which was given gratis, to the members of the company who aided us and to the public in general for their liberal patronage and trust we may be able to serve the company again.

Dies Suddenly

Mrs. Morgan, wife of Reese Morgan, who lives in the vicinity of Ricker, Gold & Co's Machine works, died very suddenly last Saturday night about 7:30. She was up town doing some shopping and on her way home became faint and stopped into a neighbors house for a rest. She had not been in the house but a short time when she fell suddenly to the floor. Upon going to her she was found to be dead. She was troubled with heart disease and that is supposed to be the cause of her death. Her remains were taken to Rejehan for burial on Monday morning. She leaves a bereaved husband and four children.

Dr. S. W. Worrell now enjoys the comforts of a good winter. He has had his lively little horse, Skip, brought to this place from Clearfield, where it has been in the care of his father, and has purchased a brand new sleigh to match the animal. The COURIER representative wishes to thank the doctor for a very pleasant sleigh ride, the first of the season, behind his well-named Skip.

FARM MEETINGS

There will be a series of Farm meetings held in the different parts of Cambria County during the next six weeks. The talk will be given by the Extension Representative and he will probably be assisted in a few of the meetings by some expert from the college.

The meetings were arranged with the view of getting the different farming communities in closer touch with the work of the Farm Bureau. The arrangements for the local meetings are in the hands of some of the most progressive farmers in each of the communities where meetings have been arranged.

CONSIDERING THE COW

O, let us cultivate the cow.
And try to educate her;
And let's by all means show her how
Culture might yet translate her
From simple bovine, crude of taste,
To quite a churning creature
With rather complex problems
faced—
O, let us up and teach her!
Surroundings quite important are;
Environment and training
Just like heredity go far—
And culture knows no feigning.
A carpet, say in Bossy's stall
Will make for true refinement;
The vulgar straw is, if at all,
For ordinary kine meant.
A phonograph might be installed
To play II Trovatore,
Or other gems so well recalled
Or bits of oratory.
Some paintings, too, will lend a
tone
Of culture to the stable,
And Bossy will come into her own
So far as she is able.

GERMANS TRY TO NAME CANDIDATE

Societies Working for Controlling Vote In June Conclaves

TO COMBINE ON CANDIDATE

Large Funds Are Behind Scheme to Rule Conventions by Electing Delegates of Pro-German Sympathies, Who Will Dictate Planks and Name Candidate—Singing Societies Active in Propaganda Work.

New York, Jan. 27.—German-Americans and pro-Germans of other race extraction are reported to be back of a nationwide scheme to create controlling factions in both the Democratic and the Republican national conventions.

They are seeking the nomination in either party of a man friendly to Germany, with the idea of supporting him with a solid German vote at the election in the fall.

Prominent Germans who were interviewed denied emphatically that they had any knowledge of any such political propaganda, but some of them admitted that they were engaged in an organized appeal for funds to defend German-Americans of this country from any such "assassinations" as had been cast upon them by President Wilson in his last message to congress.

Reports that have been received in certain quarters and information developed by a systematic investigation show that unlimited money is behind the propaganda in furthering the cause of Germany at the polls. A member of every one of the German organizations throughout the country has been set to work to appeal for funds and request for aid is being made to every German or German-American in the country.

It was asserted that more than \$2,000,000 a week is being collected in this country through the numerous German singing societies, turntables and other organizations. A great part of that money is being donated to the German Red Cross and to various other phases of German propaganda, but whether the collection for political purposes is a part of the \$2,000,000 weekly, or is distinct from it, has not been made clear to the men who have unearthed the present political campaign.

The men behind the national scheme are sounding out every big politician. They are getting information about the sentiments of every congressman and every senator on phases of politics growing out of the European war.

It is said that in the campaign men of German birth are not likely to figure publicly. The game is to feature Americans against whom no charge of divided allegiance can be made. The pro-Germans are working in both parties; that is, Republicans of pro-German sympathies are working in that party, while Democrats of Teuton leanings, are being prepared for their work.

The scheme calls for gathering in the convention of either party a sufficiently large faction to dictate planks that will be favorable to Germany, and also to have a deciding vote in the selection of the candidate for president. To that end many thousands of pro-Germans are now silently at work throughout the nation.

Among the men who are working zealously to forward the collection of money for the spreading of literature that will show that German-Americans are for America first are C. J. Huxamer of Philadelphia, president of the National German-American Alliance of the United States; Henry Weissman, president of the state organization of German societies, and Alphonse G. Koelbe, president of the United German Societies of New York.

When Mr. Koelbe was seen at his office he said he had been trying to collect money to be "used in sending out literature in defense of German-Americans against the aspersions cast upon their loyalty by President Wilson. I have not been trying to collect any money to be used in a political campaign," said Mr. Koelbe.

MAY DEFER CONFERENCE

Miners' President Asks Operators to Change Date of Meeting.
New York, Jan. 27.—President White of the United Mine Workers, whose three-year agreement with the operators expires on April 1, has asked for a postponement of the conference between anthracite operators and miners, scheduled for Feb. 19 in this city, until Feb. 21.

His request for a postponement was based on possible delay in the negotiations concerning the proposed bituminous wage scale stated to begin at Mobile, Ala., on Feb. 1.

Miners Vote No Strike.

Indianapolis, Ind., Jan. 27.—The United Mine Workers of America in convention decided not to suspend work after the contracts have expired, so long as negotiations for new agreements are pending.
A thing vote taken after a long debate showed that 1,000 of the 1,200 delegates favored the proposition of non-suspension, recommended by President John P. White.
