BILLPOSTERS ORDERED BY COURT TO DISSOLVE

Organization Sought to Maintain Exclusive Control of Trade.

Chicago, March 15.—The Associated Billposters of the United States and Canada was held to be a combination in restraint of trade by Federal Judge Landis.

The ruling was given in the government suit asking dissolution of the association filed in August, 1912.

"The rule of 'reasonable restraint' has no application here," said Judge Landis. "For the reason that this is not a case of mere restraint, but of total exclusion."

The complainant charged that ever since its organization in 1891 the Associated Billposters had sought to crush competition. It was alleged in support of the dissolution suit that membership in the organization was limited to one member in each town; that its members were barred from accepting work from any advertiser who furnished business to non-advertisers; that a schedule of prices was adopted for all parts of the country; that competitors were bought off and that members were prohibited from accepting work from solicitors not licensed by the organization.

The court ruled that the injunction asked by the government to restrain the billposters from carrying on their business as an organization would go into effect for sixty days to permit an appeal to the supreme court.

LORIMER FACES JURY IN BANK WRECKING CASE

Capital Bank of Institution Borrowed, Says Prosecutor.

Chicago, March 15.—William Lorimer, former United States senator, was placed on trial on charges of conspiracy in connection with the wrecking of the La Salle Street Trust and Savings bank, of which he was president.

Charles B. Mundy, vice president of the institution, was convicted and sentenced to five years in the penitentiary on the same charges after a trial lasting several weeks.

In his opening statement the assistant state's attorney, William H. Eddy, told the jury how the bank was changed from a national to a state institution, asserting that the capital stock, \$1,000,000, was borrowed from another Chicago bank, assigned to the bank examiners and then returned.

BERLIN DOUBTS SUBMARINE TORPEDOED BARK SILIUS

Will Make Complete Amends if Case is Proven.

Washington, March 15.—Unofficial advice indicate that Germany will make complete amends to the United States if it is found that a German submarine torpedoes the Norwegian bark Silius, from which seven Americans were rescued in Harve roads.

The German government is represented here as believing that a torpedo was not responsible for the loss of the bark and that any commander who attacks a neutral ship such as the Silius without warning would be exceeding his instructions.

The sinking of the Silius has been the cause of much concern because American Consul Osborne, at Harve, reported that the ship was torpedoed without warning.

His report was based on statements of American survivors.

Officials are inclined to entertain the possibility that the ship might have been sunk by a mine, but the case is being investigated further.

PENNYPACKER STIRS UP OPPOSITION BY WRITINGS

Pro-German Utterances May Lead to Governor of Pennsylvania Post.

Philadelphia, March 15.—It has become known that the Historical Society of Pennsylvania is likely to be divided into hostile camps between now and May 2, when the annual election for president is to be held.

Former Governor Samuel W. Pennypacker, who has been president of the society for many years, will be opposed on account of his pro-German writings and verbal expressions.

At the meeting to nominate candidates for president the name of S. Davis Page was offered in nomination by Ogden D. Wilkinson, who said:

"Mr. Pennypacker is entitled to his personal opinions, but as president of this society many members do not believe he should continue as president and commit himself in writing pro-German articles. We are neutral."
