

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

PROHIBITION agitators have been circulating, since the European war began, FALLACIOUS tales about the efforts of nations to stop the use of alcoholic stimulants. The agitators have exploited the story that drink interfered with the fighting strength of the soldiery.

BUT, substantiated FACT explodes this FALLACY. In a recent article *The British Medical Journal* stated: "The rum ration is issued twice a week to all ranks, and an additional half ration is supplied on each of the other days to the men in the trenches. During the very cold, inclement weather, a full ration of rum has been issued daily to the men in the trenches; the full, full, full, is 2 1/2 ounces."

"WE HAVE ascertained that while the sale of vodka is prohibited in Russia, a medicinal dose is issued to the troops at the front. Alcohol is also issued to the Austrian army, and we have reason to believe the issue of spirits to the German army has not been stopped."

"ALCOHOL has a high caloric (heat producing) value, and is rapidly absorbed and utilized. The FACT that it is a food cannot be doubted."

THEN there are other authoritative FACTS to show that liquor is freely used by soldiery in the European war. Robert E. McCormick, war correspondent of *The Chicago Tribune*, wrote to that journal from Ypres on April 13 as follows: "I could say with truth that nine out of ten men in both armies drink alcoholic beverages every day."

"THE British are served a ration of rum in the trenches just as they are served beef and biscuits. The FACT is he gets it officially from his government, and the statement that the British army is on the water wagon is the biggest canard of the war. I am writing FACTS, not propaganda. Every French soldier in camp or in the trenches is given a bottle of wine for supper every night."

THE above extracts, from authoritative sources, once more makes manifest that Prohibition FALLACIES are easily disproven by FACTS.

A man never has a very hard time thinking up some good excuse for staying away from church.

Another reason why a man has to think up a bunch of lies to explain why he was out so late is because he knows that his wife wouldn't believe the truth if he told it.

THE GREATEST HEALTH INSURANCE IN THE WORLD

T. P. Taylor, Prominent Louisville Druggist, Makes Interesting Statement

"The greatest health insurance in the world is the simplest," he said. "I never could quite understand why people are so negligent in the use of the simplest of all preventives of illness. It's all a matter of keeping the bowels open. The man who carries a little box of Rexall Orderlies has got a good health policy in his pocket. I believe they are the best laxative ever prepared, and their pleasant taste appeals to men, women and children alike."

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonful, because Sac worth makes a whole pint (128 teaspoonful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn.
