JAPAN ENTERS PROTEST

Constructive Provisions in New Immigration Bill as Fresh Slip at Her Citizens.

Washington—Japan has renewed her objections to provisions in the pending immigration bill which are construed as virtually enacting into law the celebrated Root-Takahira agreement for the restriction of immigration to the United States and as including Japanese with Hindus in an excluded class.

The administration, it was said, fears no difficulty in arranging the terms of the bill so as to avoid wounding Japanese feeling, and to that end President Wilson will confer with House and Senate leaders.

GERMANY EXPECTED TO YIELD GRADUALLY

Delay in Reply Interpreted As Dignified Sign of Acquiescence

Berlin.—Germany's answer to President Wilson's ultimatum will be dispatched to Washington in a few days, perhaps hours.

Of all the signs and hints and omens with regard to the outcome of the crisis between the two countries this very delay of Germany's answer is the most significant; it points clearly to a backdown on the part of the German government, a dignified and gradual, but none the less complete accession to America's demand that the lives of American citizens be safeguarded.

What Diplomats Think

Were Germany courting a break with the United States; were she thoroughly convinced that there is "not one scintilla of justification for the American demands"—as some individual hot-headed editors have been asserting—then there would have been flashed across the cable inside of 24 hours after the presentation to the foreign office of the American note, a brief, curt, decided reply telling the American government in so many words that what it asks is impossible to grant and that this is Germany's last word and closes the incident.

Even the Kaiser's absence from Berlin would not have prevented that. Berlin.—The imperial chancellor, Dr. von Bethmann-Hollweg, returned to Berlin, which would seem to justify the assumption that the empire's responsible leaders at main headquarters have finished consideration of the American note and reached a decision concerning Germany's reply.

Turks Check Russians

Constantinople.—The Russians have met with a check in their operations in Southern Armenia, according to the official statement by the Turkish war office.

Hostile forces which were in the sector of Motiki, south of Bitlis, were compelled to retreat toward Bitlis, fighting rear guard engagements. They left hundreds of dead. After four hours of fighting from Kuzma mountain to the east of Mush, the enemy was repulsed.
