**EUROPEAN POWERS PURCHASE SHELLS**

Another heavy buying movement in steel tonnage, blooms and forgings, for delivery by April 1, 1917, and in some cases by July 1, 1917, is being carried forward by domestic munition manufacturers, who now have closed large additional contracts for finished shells with European governments principally British, according to the Iron Trade Review. Sales of rolled steel closed in this district with the mills the past week exceeded 100,000 tons. One company alone bought 60,000 to 75,000 tons, and another 30,000 tons. Much of this business is understood to have gone to the Steel corporation mills. There are further negotiations under way for domestic companies, calling for at least 100,000 tons more, of which independent companies probably will receive liberal portions. Two of these inquiries are for 20,000 tons each and another for about 15,000 tons. Several others of indefinite tonnage are pending. The steel market consequently is displaying the most activity in many months. The munition makers are finding greater difficulty in getting the steel deliveries they desire from the mills because of the manner in which the latter are obligated on forward deliveries. It is estimated that the new shell and shell forging contracts just placed aggregate in value at least \$100,000,000. Those of the American Locomotive Co. which are among the largest in total, are understood to reach \$30,000,000 or more. The American Steel Foundries have a large new order estimated from \$15,000,000 to \$20,000,000 and the American Car and Foundry Co. one of large proportions. Among the other companies, which have received, or are about to receive new orders are E. W. Bliss & Co. the New York Air Brake Co., the American Brake Shoe & Foundry Co., Babcock & Wilcox Co., the Midvale Steel and Ordnance Co., the Forged Steel Wheel Co. and others. The number of shells and shell forgings ordered total easily 2,000,000 to 3,000,000. One company alone received practically 1,000,000. The shells mainly are of large sizes, or 6, 8, 9 2 and some 12-inch.

**HOW THIN PEOPLE OBTAIN A PLUMP STRONG ROBUST BODY**

Before I took tonoline people used to call me "skinny," but now my name is changed. My whole body is stout. Have gained 15 lbs. and am gaining yet. I look like a new man," declared F. P. Smith, Pittsburg, Pa., who had just finished the tonoline treatment.

Would you, too, like to quickly put from 10 to 20 lbs. of good, solid "stay-there" flesh, fat and muscular tissue between your skin and bones? Don't say it can't be done. Try it. Let us send you free a 50c package of tonoline and prove what it can do for you.

Every druggist is dispensing a great deal of tonoline. More than half a million thin men and women have gladly made this test and that tonoline does succeed, does make thin folks fat, even where all else has failed, is best proved by the tremendous business we have done. No drastic diet, flesh creams, massage, lie or emulsion, but a simple, harmless home treatment. Cut out the coupon and send for this free package today.

Take tonoline with your meals and watch it work! This test will tell the story.

60c Box Free
