AFTER SIX YEARS

Patton Testimony Remains Unshaken
Time is the best test of truth. Here is a Patton story that has stood the test of time. It is the story with a point which will come straight home to many of us.

Mrs. L. Bloomberg, Fifth Avenue, Patton, says: "My back was very weak and painful for a long time. I also had dizzy spells with dull headaches. Of the many prescriptions I used, none seemed to benefit me. I finally used a box of Doan's Kidney Pills and before long, the pains left me and the dizziness lessened. The miserable headaches went away, too, and I felt better in every way."

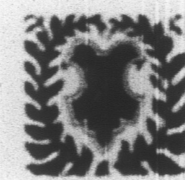

OVER SIX YEARS LATER, Mrs. Bloomberg said: "The recommendation I have previously given Doan's Kidney Pills still holds good. There are no words strong enough to express my high opinion of them."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bloomberg has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

HOW THE BIG DAILIES VIEW THE PRINT-PAPER SITUATION

Many of the larger papers of the country are intimating very strongly that all of the raise in price of print paper is not justified on the grounds of increased cost of labor or raw material, but that a combination of print paper manufacturers is responsible for the greater portion of the increase. These same statements were made before the federal trade commission investigation at Washington. The following editorial from the New York World is a fair example of the attitude of many of the most influential papers of the country:

Piracy in Paper

"When the federal trade commission reassembles in August it will meet an important problem relating to the price of print paper. If this government agency for the correction of rapacity in business is ever to have an opportunity to prove its value, it can ask nothing better than that which now presents itself.

"Except as individual publishers have protected themselves from extortion, print paper has been monopolized in this country for almost a generation. There is a pretense of competition, but the consumer who enters the market soon finds that he has been allotted to a single producer and that nobody else cares to do business with him. This is combination at its worst.

"Of late, purchasers not protected by long-time contracts have met prices almost prohibitive on all sides, and the evidences of conspiracy are too numerous and too plain to be disregarded. Extortion in this line can make no plea of necessity. It is to be attributed to nothing but the chicanery of highwaymanship—the power to rob and the helplessness of the victim who is to be robbed.

"Perhaps a vigorous protest on the part of the trade commission will bring this buccannery to an end. If not, the case should go to a federal grand jury without further delay.

PRINTERS WANT INVESTIGATION OF PAPER COST

Fallmore, Aug. 14.—"Something more substantial than perfunctory investigation" of the increased cost of white paper was demanded of Congress here today at the opening

session of the 62d annual convention of the International Typographical Union

"The grip of the rising paper market is throttling the life out of many struggling newspapers and commercial printing houses," said President Marsden G. Scott in his annual report of the convention.
That hundreds of public schools are giving instruction in printing which is harmful to the pupil and the trade was charged by delegates to the convention.
Printers during the year earned net wages of 1,041.18, according to President Scott.

BOY WHO STOLE PATTON AUTOMOBILE IS CAUGHT

The boy who stole Attorney Reuel Somerville's automobile several nights ago was caught on Saturday

between Altoona and Tyrone with another automobile he had taken. It is said that he has stolen five cars since leaving Patton with that of Attorney Somerville.

The prisoner is Donald Gailey, of Altoona, who is being held in Altoona. The Somerville car was found in a field below Altoona. The thief had the tools from the car scattered all about, evidently having worked on the car for several hours and then abandoned it. It was found that the pipe that carries gasoline from the tank to the engine was clogged.

The boy who has cigarette stain on his fingers, should be brought to realize that there is the same sort of stain upon his lungs.
