Many people who noticed the sunny smile worn this week by Joe Lehman, one of the proprietors of the Grand Theatre, thought that business must have taken an upward climb in the New Year. While this might account for part of it, those who know, say the largest part of the smile is caused by the dear little girl that was left at home as a New Year's gift from the stork. This is Joe's first appearance in the paternal role and he is correspondingly elated.

AMERICAN LEGION NEWS

A complete survey of the "shameful neglect" and inefficiency attending the care of the sick and wounded veterans of the world war was presented January 10th by the American Legion in the form of a memorial to President Wilson, President-elect Harding, all senators and congressmen and to the people of the United States through the press from the mouths of three thousand volunteer Legion speakers.

In addition to the summary of deplorable existing conditions, the Legion's solutions for remedy were presented. These included the combining of the Bureau of War Risk Insurance, the Federal Board for Vocational Education and the Public Health Service under one head, responsible directly to a member of the cabinet, and the immediate appropriation of money for the construction of a large number of hospitals.

The memorial was presented to President Wilson by John Thomas Taylor, chairman of the Legion's national executive committee, and to Senator Harding by F. W. Galbraith, Jr., National Commander, in a conference on the general situation of the disabled at Marion, O.

Kansas members of the American Legion are in the throes of a struggle as champions of the cigarette. The fight is centered at Topeka where the local post has urged the repeal of the Kansas law prohibiting the sale of cigarettes. Dr. Willis A. McKevvey, of the University of Kansas, author of the anti-cigarette law and leading opponent of the Legion's stand,

has appealed to the ex-soldier to "turn aside from the selfish cigarette and come out on the side of Christ and Kansas" and has proposed a debate with the Legionnaires on the question of the cigarette as a menace. Legion members, in a recent resolution, asked Governor Allen to urge the repeal of the anti-cigarette law.

An interstate conference of the commanders and adjutants of the Departments of Texas, Oklahoma, New Mexico and Arkansas is in project for January, probably at Austin, Tex.

Because its producers were notably pro-German, New York Legionnaires last year waged a strenuous fight against the production of German opera in New York City. This winter there will be no Legion opposition to German opera, according to William F. Deegan, Department vice-commander, because it is produced by Americans.

In conformity with the American Legion's national policy of encouragement of education, William B. Coleman Post of Atlantic, Ga., has established a \$500 a year scholarship in the Georgia Institute of Technology.

Major General Leonard Wood should be named as secretary of war in the opinion of Potluma Cal Post, No. 38 of the American Legion, a resolution sent to President-elect Harding.

National Commander F. W. Galbraith, Jr. of the American Legion, will address the first state convention of the Women's Auxiliary of the

Thrown off a freight car when he stumbled on a running board, J. A. Wilson, a Baltimore & Ohio brakeman, of Conneville, saved his life when he flung his train by the means of a lighted piece of waste, which he chanced to have in his hip pocket. Although twisting in pain, Wilson had the presence of mind to light the waste and wave it in such a manner when meant a stop signal to the crew. The crew in the rear of the train saw the signal, stopped the train and took the injured brakeman to the Uniontown Hospital.
