THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good

By JESSIE ROBERTS

THE JOY OF A JOB

YOU can put about all people into two groups—those who like their work and those who don't.

For most of us our work is a big part of our life. It is up to us to choose the sort of work that is going to like. No amount of money can repay you for unhappiness you daily spent doing something you don't like are unhappy hours.

But the truth is that the girl who is enjoying her work usually makes more at it than she would at any other work. She brings enthusiasm and interest and improves possibilities that she wouldn't even see if she didn't love what she did.

In choosing your work you are to a large degree choosing your life. You aren't going to be able to choose a second time as far as that goes. So waste most of it in doing drudgery work or lonesome work is a crime.

Many women have been doing new and interesting work. I have heard stories of women announce that they would never return to the jobs they had filled before answering the call of their country. Many had done only routine work and hated office life. Such women are determined not to fall back into the rut.

The salary is not everything in a job. You, yourself are more important than any salary. When you plan for a job study for it, work for it remember yourself. Look for joy in your job as much as for money. It will pay you double measure.

"What's in a Name?"

By MILDRED MARSHALL

Facts about your name: its history, meaning, whence it was derived, significance, your lucky day and lucky jewel.

SADIE.

THE quaint name of Sadie, lately spelled Sadye, has its origin with Sarah. It comes from a Hebrew verb meaning to fight or rule, and hence came to signify "princess." The first record of the use of Sarah or Sara belongs to Bible history where the wife of Abraham was so called.

Sadie came into existence through the Irish, unless one came to believe that she is only an Americanization of one of Sarah's many diminutives. But for the sake of etymological exactness, it is nice to believe that the Irish Sadhbh was the real forerunner of Sadie.

But between the time of Abraham's wife and the appearance of the Irish version of her name, Sarah had been adopted by other countries and had won great popularity. In England Sara Beauchamp gave it vogue in the reign of Edward I and Sarrota de Monlton, who lived in a former reign, was also supposed to possess a name which was another and favorite form of Sarah.

The French proferred Sara without the "h" and it still continues in great vogue there. They have another form, Sarotte, which is also popular. Ireland's Sadhbh and America's Sadie are apparently the only other existing forms.

Sadie has a curious talismanic zest—malachite. If it is engraved with an image of the sun, it will bring her peace, freedom from danger and disease, and sound sleep. It is particularly lucky for children, and it is said that a piece of malachite tied to a child's cradle will protect it from dangers throughout later life. Saturday is Sadie's lucky day and 7 her lucky number.

A LINE O' CHEER

By John Kendrick Bangs.

HOW FARES THE LEAF?

HOW fares the leaf that you turned o'er
When glad New Year first showed her face?
Today what seems to be the score
No mortal hand can e'er erase!

'Tis withered! And your promises fair
Hath gone to glimmer with the days,
And many a blot hath fallen there,
Through lapses into former ways!

All well, and bad. And yet Time's tree
Holds leaves abundant to your hand.
And if this one shall withered be
A fresher waits for your command.
