**Carey**  
ASFALTSLATE SHINGLES

THINK of the up-keep as well as the first cost when you build your home. Use Carey Asphalt Slate Shingles and your insurance rates will be less. Your home will be safer.

You will never have to paint Carey Asphalt Slate Shingles. The beautiful natural red or green stone color of the slate is fadeless.

Your roof will not look shabby in a few years.

These shingles cannot crack, they do not warp, wind does not get under them, ice action cannot break them.

Furthermore Carey Asphalt Slate Shingles do not rot. This is because they are composed of from 70 to 80% mineral matter.

They are inexpensive and are very easy to apply. Let us figure on your requirements.

**Earl Has Railroad at Home.**  
Police constable the marquis of Downshire, the owner of about 120,000 acres, who has motored 50,000 miles in the course of his duties as a "special," is a practical engine driver. In the grounds of Hillsborough castle, County Down, he has a miniature railway. The small train consists of an engine, one carriage and a guard's van. If need be he can travel at the rate of 40 miles an hour. The marquis has a fairly long string of Christian names—Arthur, Wills, John, Wellington, Blundell, Trumbull, Hill—and part of these he owes to the marriage of his ancestor, the second marquis.

**Daily Thought.**  
Few persons have courage enough to appear as good they really are—J. C. and A. W. Hare.

**Fiske's Admiration for Darwin.**  
The biographer of John Fiske writes this comment in one of his letters from England: "Darwin is the dearest, sweetest, loveliest old grandpa that ever was. And, on the whole, he impresses me with his strength more than any man I have yet seen. There is a charming kind of quiet strength about him and about everything he does. He is not hurrying and never hurries. He has a mild blue eye and is the gentlest of gentle old fellows. . . . None of these men need to know how great they are. But Darwin is one of the most truly modest men I ever saw."

**Character in Countenance.**  
A man of integrity, sincerity and good nature can never be concealed. For his character is wrought into his countenance.—Marcus Aurelius.

### Here's a Real Argument For Philippine Independence

A Typical Philippine Homestead

The United States isn't the only country that has homesteaders—those enterprising pioneers who leave thickly populated districts and take their families into virgin territory to create homes for themselves. The Philippine islands have thousands of sturdy homesteaders.

The above photograph shows a picture of a Christian Filipino homesteader and his family near Pikit, Cotabato province, Mindanao, P. I. Five years ago he was a cab driver working for low wages at Cebu, a thickly populated city. He went into the then wilderness of Mindanao, planted hemp and coconut nuts, paid for his land and has become wealthy. Thousands of similar homesteaders could be listed. One Mindanao homesteader is worth \$200,000.

**How Primitive Man Got Fire.**  
Fire was known early in human history. Primitive man probably first learned to produce it by rubbing pieces of wood together.

**Optimistic Thought.**  
Honor is the recompense of those who do right without seeking recompense.

The Philippine government is encouraging the immigration of Filipinos from the thickly populated sections into Mindanao. This is the second largest of the islands of the archipelago. It is still sparsely settled, although it is one of the richest and most productive islands in the world. Many Americans have established plantations there and become rich.

Filipinos are using the stories of the many successful Filipina homesteaders as an argument for independence. They go out into a tropical wilderness with no capital save their patience, perseverance and energy and win homes for themselves, have the necessary statistics to run their own affairs.

**Avoid Bad Temper and Lie Long.**  
Every time a person gives way to a bad temper they put poison into their system which has to be worked off at the expense of their general health. Every time one laughs heartily they add to the length of their own life and add to the happiness of the lives of others. Nature kills off the right ones.

**Average Cotton Production.**  
The world's annual cotton crop is about 2,000,000 bales.

**Relieving Our Minds.**  
What process for reasoning on most occasions is a series of vocal sounds which serve to use a phrase as once popular and scientific—relieve our minds. Arguments employed in political addresses, sermons, and newspaper editorials are commonly little more than mere ejaculations, called forth by feelings of approval or disapproval, commend or alarm.—James H. Robinson, in Atlantic.

**Chinese Favor Large Families.**  
Chinese are fond of large families, for it is looked upon as a sign of good temper and right living. A large family living together and not dividing the property is a sign of prosperity. One of the highest honors, Wu Pa Tzu, King of the generation under heaven, is received by all but attained by few.
