Announcing An Important Community Investment Opportunity

GROWING communities demand growing public utilities. The territory served by the Penn Central Light & Power Company is growing—and growing fast. The Penn Central Light & Power Company must grow as this territory grows. It must keep pace with the community—must even anticipate its future requirements for light and power—that the community may enjoy its fullest natural expansion.

Just as cities and towns require the investment of capital that they may build new streets, new sewers, new water mains, etc., so does the Penn Central Light & Power Company need constantly new capital that it may extend its lines, improve its equipment, install additional machinery—all for the purpose of providing the citizens of this community with better light, power and gas service.

Thus, the continual demand of public utilities for new capital affords an opportunity for the safe investment of the funds of both individuals and corporations. These funds in former days were largely supplied by bankers and outside investors.

In 1920 the Penn Central Light & Power Company offered a limited issue of its Preference Shares to its customers and residents of the territory it served, with the result that more than \$350,000 worth of stock was purchased by them. Many persons who desired to purchase these shares at that time and become a Financial Partner in the Company were disappointed as there were not enough shares offered to meet the demand.

The Penn Central Light & Power Company is pleased to announce that it is now offering local residents an opportunity to invest in its Preference Shares on terms most favorable. This investment will yield a return of 8 1/2 per cent for the balance of 1921. After January 1, 1922, this rate will be increased to 9 1/2 per cent.

Stock may be purchased for cash, \$45.00 per share and accrued dividends, or on the monthly payment plan, \$3 down and \$3 per share monthly. Interest at the annual rate of 6 per cent, payable quarterly, will be allowed on payments.

Call at our office or write for free booklet, "Partnership with the Public."
