There are many people in Cambria County afflicted with the various forms of tuberculosis. Red Cross nurses visit these people, giving instructions and bedside care to such people. Many of these people are financially unable to procure the proper food and sanatorium care. In such cases we co-operate with agencies that insures the proper treatment.

In September, 1921, the Cambria County Chapter engaged a specially trained instructor to teach home hygiene and home care of the sick in the high schools of Cambria County. The subject was offered free of charge to the various high school. Six schools accepted the offer and placed the subject on their curriculum, giving the usual school credits. The course includes theory and practical demonstrations in proper methods of ventilation, bedmaking, cleansing baths, sponge baths, making and applying various kinds of poultices, proper treatment of babies, sterilization and pasteurization of milk, care of old people and the invalids.
