WHAT'S THE MATTER WITH CARROLLTOWN?

Perhaps Carrolltown people don't notice it, but Patton folks continually decry the fact that that particular borough surely can boast of the worst streets of any borough in the country, and the editor of The Courier hears complaints daily.

East Carroll Township, assisted by

Cambria County, last year had completed a permanent brick highway from the Patton Borough line to the line of Carrolltown Borough, and this road would be very much traveled by Patton folks as well as everyone, were it not for the exceedingly miserable condition of the road at the end of the brick in Carrolltown Borough. All spring and even last fall this particular stretch of road was in such a shape that people were loath to drive a car over it. That this condition exists is beyond the grasp of most folks and surely the blame rests with the councilmen of the Borough of Carrolltown.

At any rate Patton folks say their bit concerning the condition of the road, if they are powerless to act.

FAST DRIVING A MENACE

With the coming of spring and the automobile once more, it is well to caution automobile drivers that reckless driving and speeding always is a menace, both to the driver and anyone he may chance to pass.

There are, in Patton, a certain number of drivers, mostly young men, who seem to think that a car, even though it be a Ford, must always be operated at full speed, regardless of whether it is in the borough or not.

Every pedestrian has his rights on the highways, and no automobile driver as any right to jeopardize them.

The silent policemen should be placed at the principal squares at once. Turns usually are the places where the fool driver gets in his dirty work

TO ALL FISHERMEN

The Department of Fisheries would call upon all fishermen to assist in the conservation of the fish and the work which the Department is doing, to take out their fishing license now. Since the first of January it has been necessary for the Department to depend upon the receipts from this source to operate its hatcheries and field force, and if the fishermen do not respond more readily to this license it will be necessary to curtail all work at the hatcheries, and lay off employees in all branches.

This law has been widely advertised since the first of January through associations, newspapers, and officers, and it is the intent of the Department to enforce the same to the letter. The trout season opens on April 15th, and our officers are working in the trout counties, and will be there for several weeks. We have also secured sixty details of State Police and the services of the Game Protectors. These officers will assist the Department for several weeks, and will cover all the streams in the Commonwealth.

Licenses can be secured from the County Treasurer of your County, or they can be secured from the Harrisburg Office of the Department of Fisheries. The law provides that all citizens of the State of Pennsylvania, male or female, over twenty-one (21) years of age must take out a license to fish or trap in any of the waters of this Commonwealth, or in the waters bounding or adjacent thereto. This includes the Delaware River and Lake Erie.

THE BEGINNING OF A BANK-NOTE

Little Marcia's baby dress though made of the finest linen was ultimately worn threadbare. One day it landed in the rag bag and was sold to the junk dealer. When the rag sorter contacted the discarded garment he detected in a flash the fine quality of the flax and set it aside for a journey to the Bureau of Engraving and Printing at Washington. Eventually it became legal tender—a bank-note. Just how it is told in one of the beautiful booklets about Our Government which we are sending each month to those interested.

Just send us your name and address and you will receive a copy of every issue of the series without charge.
