The new tank is one of the kind used by most Atlantic Refining Company dealers. With two tanks, Mr. Biller will be able to furnish the public with two kinds of gasoline. Up to this time there was no concern in town that handled more than one kind of gasoline at the same time. The new pump is expected to be ready for use tomorrow.

Talks to Republican Voters

By Anderson H. Walters

I am a candidate for the Republican nomination for Congress in the new Cambria County district. This is a time when many persons believe the new district should be represented by one of experience in the work of the Congress. I have had that experience.

On all the issues involved in the campaign I am on record. I am in favor of a non-bossed party, and would not return to former conditions. No mere factional troubles, or personal opposition should be permitted to create dissensions.

I am, and have been, a progressive Republican, just as in civic affairs I have tried to be a progressive citizen. I do not believe it necessary to proclaim adherence to men and measures with which I have been long in accord, or to assert a new discovery, such as enforcement of law.

I have stood for the interests of the community and county in which I live. In my place, my activities have been of the most public sort. Therefore, I must be judged by the record.

First to establish the
\$10.90 price—Usco

THE makers of U. S. Tires made this announcement last November—

"Hereafter the price of the 30x3 1/2 'Usco' is \$10.90." The lowest price ever quoted on a tire of quality reputation and standard performance.

And now, with the opening of Spring, there seem to be quite a number of "New and Special tires" coming into the market in the \$10.90 price range.

Perhaps you are wondering just what there can be either "new" or "special" about these tires.

It can't be the \$10.90 price—"Usco" established that five months ago.

Not quality reputation and standard performance—for it takes more than one full season for any new tire to demonstrate where it stands in quality and value.

With so many tires rushing into this \$10.90 price

field (now that the season promises business from the American car-owner), it is worth remembering that "Usco" showed its good faith by announcing this price last fall.

The same intent to serve that has made "Usco" a standard value for years.

The "Usco" Tire was never better than it is today—with its established quality, its time-tested performance, and its price close figured in tune with the times.
