IF NOMINATED AND ELECTED:

Will favor and work for the Legislature that will put our schools on the highest standard, permanent Roads, and in this favor a good highway from North to South of County and from East to West of County, with permanent side roads built to these highways as most needed. Favor legislation for the best health conditions, the support of our laws both State and National, the most equitable legislation for employee and employer.

Will work for sensible economy and business like methods in our state departments so as to maintain high standards in our institutions.

I am entirely free from any political combinations and will seek the help and advice of the thoughtful progressive people of Cambria County in all legislator matters.

Buick "Four" Also Drives Through the Third Member

Whether it is a Four or a Six, every Buick measures up to the same rigid Buiek standards of design and construction. Whatever is Buick, is Buick throughout.

The Buick Four, like the Buick Six drives through the torque tube third member on the axle. Buick Springs only support the body and ensure easy riding. A Buick rear spring, accidentally broken, cannot mis-align the axle and tie you up on the road. This design is generally found only on high-priced cars.
