

YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

Kenosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother and great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to give it a fair trial and I am sure they will find it about it.—Mrs. FRANK P. HANSEN, 602 Symonds St., Kenosha, Wisconsin.

A medicine that has been in use nearly fifty years and that restores the prime and comeliness of mothers and grandmothers is worth your consideration.

If you are suffering from troubles that sometimes follow childbirth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles.

The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

NO DYE

Great Variety of Bananas. There are over 30 varieties of the banana, with of great or greater variations in character as to the different kinds of apples. Hawaii is said to have something over 40 distinct varieties of the fruit, most of which have been introduced by the whites. Some of these are extremely delicious in flavor, while other kinds are used, if at all, only when cooked in various ways. There is scarcely a city house for or country household which does not have a cluster or two of bananas, which grow with practically no care, save plants or cuttings abouting up to replace the ones which have fruited and been removed.

Stop That Backache. These annoying twinges, that dull throbbing aches, may be warning of serious kidney trouble. Doan's Backache Kidney Pills are the best remedy for backache, rheumatism, and all kidney ailments. Write for free trial.

A Pennsylvania Case. Mrs. J. C. ... (text continues with details of a case involving a woman's health and a medical consultation).

THE KITCHEN CABINET

Think that the man whose manhood holds the woman's pump and mixer's gold. Obtain the richer prize. Then be who, in the hot at rest. Find heavily scarce a writing post. And bears the promise in his breast. Of the treasure in the chest.

THINGS THAT HELP

If you are unfortunate enough to spill pepper in the soup, drop a piece of bread into it, and remove it; the pepper will cling to the bread. Bread that is in danger of molding, may be sliced and baked again, making a good sweet-bread of it.

Smoked fish may be baked by wrapping it in two thicknesses of paper, folding the ends and placing in a hot oven from fifteen to thirty minutes, according to the size of the fish. Turn several times to insure its being well cooked.

If screens stain or even discolor, take a piece of rubber from an inner tire or four and gasoline. Rub it in to the hat with a brush, renewing the paste as it becomes soiled, then give the hat a good brushing with a clean dry brush. In cleaning gloves put them on the hands and wash the gloves in the flour and gasoline paste, rubbing the soiled spots if necessary with an old tooth brush.

Old stockings make the floor mop. Cut them open and fasten them as a mop stick. They are y to be used, taking the place of an old mop.

Bread Pudding—Break up bits of bread, place in a boiling dish, add a little finely sliced apple and pour over a custard, using one cup of sugar to one cup of bread. Grated lemon peel is especially good. Bake until the custard and apple is done.

Light velvet hats as well as gloves may be cleaned with a paste made of flour and gasoline. Rub it in to the hat with a brush, renewing the paste as it becomes soiled, then give the hat a good brushing with a clean dry brush. In cleaning gloves put them on the hands and wash the gloves in the flour and gasoline paste, rubbing the soiled spots if necessary with an old tooth brush.

RAIL LABOR BOARD ORDERS WAGE CUT

Decreases Averaging Five Cents per Hour Will Affect 400,000 Men

PROTEST BY LABOR MEMBERS

Review, in Force July 1, Hits Maintenance of Way Employees Principally—Decisions Affecting Other Classes To Come Later.

Chicago.—More than \$48,000,000 was slashed from 4 wages of 400,000 railway employees in a decision by the United States Railroad Labor Board.

The decrease, which averaged five cents per hour in the majority of cases, followed cuts of \$400,000,000 proposed last July by the board. The made last July by the board. The present decision, however, affects mostly maintenance of way workers, although decisions are pending affecting other classifications.

If the wage cuts made in the latest decisions are extended to other divisions expected soon, it was pointed out in railway circles, much of the \$600,000,000 increase given by the board in 1935 will be wiped out and wages restored to a level which railway officials have told the board will lead to a new era of development and open the way to the employment of 200,000 men.

The decision was signed by the board and the three members representing the public. A dissenting opinion was filed by the three members representing the labor group. The majority opinion stated that the new wage cuts, effective on July 1, were made in accordance with decreases in the cost of living. The minority opinion contended that the wage cuts provided in the decision was insufficient to enable life on the basis of American standards.

The board's decision followed the hearings held on the request of the railroad for wage reductions and employee request of several classes of employees for increases in pay. Those hearings began in Chicago March 6 and ended April 29. All except three or four of the larger railway systems were affected by the hearing, which included all classes of employees except those in train, yard and engine service, who were then conducting negotiations with the railroad, which had not terminated when the hearings began.

SERIOUS ACCIDENT AT CAMP FIRING RANGE

Four Soldiers Are Killed When Shell Hits Tree and Explodes During Gun Practice

Paperville, N. C.—Four enlisted men were killed and one officer was wounded when a projectile struck a tree and exploded during target practice at Camp Brass, near Fayetteville, N. C. The explosion was heard for miles around.

The men killed were Private First Class James H. Smith, Private First Class James H. Smith, Private First Class James H. Smith, and Private First Class James H. Smith.

The officer wounded was Captain James H. Smith. The explosion occurred during a routine firing exercise.

The cause of the explosion is being investigated by military officials. It is believed that the projectile struck a tree and exploded.

The military department has ordered a thorough investigation of the accident. It is hoped that the cause will be determined.

CUT ORDERED IN RAILROAD RATES

Inter-State Commerce Commission Makes Big Reduction in Freight Charges

PASSENGER FARES TO STAND

Declares Railroads Are Entitled To Earn 5 1/2 Per Cent On Value of Property in Comparison With Former Six Per Cent Rate.

Washington.—A sweeping reduction in freight rates throughout the country was ordered by the Interstate Commerce Commission.

The reductions are to be effective July 1. The reductions ordered will cut the present rates about 19 per cent, the decision of the commission states.

The commission also declared that railroad rates in the future would be based on a return of 5 1/2 per cent on the aggregate value of the lines, as compared with 6 per cent under the Rock-Cammata law. The provision of the Rock-Cammata law recently expired and the commission was given the right to fix a new rate of return.

In making the reductions the commission cut nearly in half the freight rate increases authorized August 25, 1935.

In the eastern district the 46 per cent increase of August 25, 1935, was cut to 23 per cent. In the western district the previous 35 per cent increase was cut to 17 1/2 per cent.

In the southern and mountain Pacific districts the previous rate increase of 25 per cent was cut from 25 to 12 1/2 per cent.

Interior-railroad rate increases of August 25, 1935, averaging 33 1/2 per cent, were cut to 16 per cent.

The announcement of the rate cut came as a surprise. It had been supposed that the administration would continue its efforts to reach a voluntary agreement with the railroad executives by which greater rate reductions would be put into effect at once.

The commission declared that the rate cut would not decrease the earnings of the railroads below the 5 1/2 per cent level agreed upon by the commission.

Transportation charges on passenger mail and Pullman charges were left unaffected by the decision.

MINE OPERATOR'S HOME IS DYNAMITED

Masonstown Man Escapes Explosion in Night With Wife and Two Children

Tiptonville, Pa.—State police and county detectives are making a rapid investigation into the dynamiting of the home of Ernest Diamond, operator of a small wagon mine, who lives in Water resort, Masonstown.

The dynamiting completely wrecked the Diamond home, damaged to a considerable extent the other houses in the vicinity and to a lesser degree damaged other houses within a radius of three blocks. It is considered remarkable that Diamond, his wife and his two children, Donald, aged 3, and Frank, aged 5, were not injured. They were thrown from their beds by the blast, but aside from suffering from shock, sustained no injuries.

Masonstown is being brought here in the hope they may be able to trace the dynamite.

Diamond's mine is situated. The mine had been closed for a year, but was reopened and the use of coal mining resumed.

DYNAMITE BLAST WRECKS FACTORY

Terrific Explosion Rocks Wide Section; Windows Are Broken for Miles

8 MEN ARE KILLED; 3 HURT

2,000 Pounds of Explosive in Process of Manufacture Left Go—Victims Workmen at Wrecked "Powder Line" of the Plant.

Essexport, Pa.—Eight workmen were killed and three slightly injured when 2,000 pounds of "green" dynamite exploded at the plant of the Great Falls Chemical Company at Wye, Pa., about 20 miles from Shamokin and about 20 miles northwest of Scranton. The property loss is estimated at \$400,000.

All of the dead and injured resided in Wye or Shamokin. All of the dead were married and leave large families.

The force of the explosion was felt for several miles. Windows in the houses of Wye were broken.

The entire "powder line" of the plant was destroyed. The "powder line" was composed of three buildings where the dynamite was prepared for shipping. The buildings were supported by beams of concrete and dirt, erected for the purpose of preventing fire or explosion in one building from communicating to the other buildings. The beams were of an oval, however.

Besides the three buildings in the "powder line," one other building was partially destroyed. It was in this latter building that men were injured. Those who were killed were in the first two of the buildings in the "powder line." Only a dozen workmen in the third building in the "powder line" escaped the explosion in the two other buildings. Six in time to escape injury.

Telephone and telegraph lines were cut off—communication temporarily by the blast, and it was several hours before details of the accident were received at outside points.

There were heart-rending incidents following the explosion. Members of the families of the 26 men who were employed at the plant rushed to the scene and there was a frenzy of excitement until the list of employees had been checked and the identity of the dead and injured determined.
