EDUCATIONAL PROGRAM COMMANDING ATTENTION

Shady Side Academy in Million Dollar Development—Prominent Business and Professional People Helping Re-Build This Famous Boys' School

ARTHUR W. THOMPSON
Chairman Shady Side Executive Committee

The people of Western Pennsylvania and the region round about are accustomed to the best. Nothing else is good enough. Particularly they insist on educational efficiency.

A Country School for boys in the modern scheme of education, is an essential. Forty years ago Shady Side Academy was organized to meet the need then. It continues to be essential and to serve in larger ways.

The old location, at the corner of Ellsworth and Morewood Avenues, has outgrown its usefulness. That section of Pittsburgh used to be open fields and parks, playing places. Now the traffic is congested, and there is not enough room for the boys to work and play. Athletic fields are below standard size and only a few boys at a time can exercise.

The Junior School will remain in the old familiar location and have ample space for itself. The Senior School is moving out to the beautiful hills in O'Hara Township, near Aspin wall. Already the buildings and landscape gardening are well under way and the new Shady Side, which is just the old school enlarged and improved, will open its fall term in the new home.

Mrs. Wallace H. Rowe and her children, in memory of Mr. Rowe, presented Shady Side Academy with the one hundred twenty-five acres on which the new school is being built. It is twelve miles from the center of Pittsburgh, adjoins the property of the Pittsburgh Field Club, and is about twenty minutes by automobile from East Liberty. School buses will afford transportation for day students to and from the city.

The boys will live in cottage laboratories, equipped with the best of modern conveniences. Each dormitory will have spacious and beautiful living rooms, which will be the center for the boys' social activities.

There will be tennis courts, golf, swimming, skating, boating, all sorts of competitive games and constant friendly intercourse with the masters. There will be unrestricted room in which to grow, study, play, be happy and at one's best.

Boys who live near enough will report at the school Monday morning and remain until Saturday, spending week ends at home. Boys farther from home will remain the entire period. Those who wish may come and go each day.

It is difficult to overestimate the advantages of this sort of private school for boys in the vicinity of Pittsburgh. It stands for the best it is, wholesome Christian but non-dominational. Its educational standards are high. Its surroundings will be ideal.

A million dollars is required for carrying through the present building program. Business and professional men are enlisting to raise this sum. The Shady Side Academy Development takes on the nature of a great civic movement and is commanding widespread attention and support from Pittsburgh, Western Pennsylvania, Eastern Ohio and West Virginia.

Mr. John R. McCabe, President of the Union National Bank, is Chairman of the Committee of One Hundred. Mr. Augustus K. Oliver, is president of the Board of Trustees.

Mr. Arthur W. Thompson, President of the Philadelphia Company, whose picture appears above, is chairman of the Executive Committee. Mr. Harold A. Nomer, an Alumnus of Williams College, Williamstown, Mass., is the Head Master.

With everybody pulling together, the new great Shady Side will soon be an accomplished fact.

Don't Ruin your Home with leaking roofs.

I have just received two car-loads of Cedar Shingles, asphalt and roll roofing, and will sell at very reasonable prices.

Snyder Sustained in Two Appeals.

ALTOONA—Four decisions, based on appeals taken from the findings of Referee Jacob G. Snyder of the Altoona district of the workmen's compensation bureau, were handed down last week by the state compensation board, the local referee being sustained in two of the cases with the referee ordered to grant a hearing ordered in another.

In the case of Louis Thomas of Hastings, the Richard Hill Coal Company the appeal by the defendant company was sustained and the findings of Referee Snyder are reversed. The claimant is a great niece of John Stevenson, deceased, the latter prior to his death contributing to the child's support. Referee Snyder accordingly granted compensation.

The state board, however, rendered a decision in which it is stated that Snyder is entitled to compensation in the case at hand, the claimant, while a member of the household of the worker, in member must be one of the family or a distinct relative, was not a member of the Stevenson household, and the compensation is accordingly denied.

The board dismissed the appeal of the defendant in the case of Frances Cynthia of Elyria, in the Carrelltown Coal Company.

A HAND WITHOUT LAW

In Danish, Greenland, there is no government, no law, and there are no police, and yet no crime has been committed there for a hundred years back. No one would think of smashing windows, even in houses, let alone churches. The Courier, as always stood for law and order. The vast majority of the good people of Patton also stand for law and order, but we evidently have some of the other kind too.

Appropriation Subject to State

EBENSBURY—At their meeting Monday, the County Commissioners appropriated to Barr Township \$2,543.83, representing two-thirds of the cost of a stone wall and drainage on the road between Spangler and Nicktown, to Susquehanna Township, \$2,500.00, representing two-thirds of the cost of a stone wall and drainage on the road between Barnesboro and Hastings, and also \$1,167.36, representing the additional cost by changing the type of construction on the Spangler-Nicktown road.

The commissioners also appropriated \$40,000.54 to Lower Yoder Township, representing two-thirds of the cost of the construction of a road connecting Virginia avenue, Johnstown, with Wall and Gilbert streets, Brownstown borough, subject to the approval of the plans by the State Highway Department.

It was announced that County Road Engineer Door and the firm of Owen & Plummer, the latter representing Calveria Township, have rejected the brick delivered for use on the Redfox road. These brick were condemned by the State Highway Department some time ago.

A petition has been filed by citizens of Upper Yoder Township asking for the construction of a new road from Miller's road to Salisbury, a distance of 2,540 feet. The proposed road would commence at a point opposite the junction of the Murrellville and Miller's roads. The petition asks for the appointment of viewers.

A TRUE BOY

Johnnie—Teacher, can any one be punished for what he didn't do? Teacher—Why not, of course not, Johnnie. Well, teacher, I didn't do anything.

CLEVELAND SIX

\$1195

FOR CLEVELAND

Every Mile You Drive It The More Pleased You'll Be

EVERY minute of driving is a joy and every mile a triumph for Cleveland Six owners. Never before has a six of such beauty and such thrilling performance, been available at so low a cost.

The new smart style of the Cleveland Six is refreshing—a welcome change from the old and accustomed. It will remain up-to-date and attractive in appearance for several years to come.

Mechanically this new Cleveland Six is an extremely fine car—simplified and improved to the last degree. Its motor, built in Cleveland's own shops, has a dozen features that are exclusive or connected only to cars twice or three times as costly.

And after a year or two, when the owner looks back at its astonishing economy and its freedom from repairs he will be prouder than ever of his Cleveland Six.
