## Did You Get the Bottom Price, After All?

The man who buys a "long discount" tire usually finds himself troubled by the above question.  
 Did he pay less for the tire than his neighbor might have paid, or actually did he pay more?  
 Did he get the bottom price, when all is said and done, or could he perhaps have driven a sharper bargain?  
 Was the net price really more than he might have had to pay for a tire of established reputation and value?  
 In the belief that the average motorist prefers a frank and open transaction, we built the new Goodyear Cross-Rib Tread Cord and discounted the "discount" in advance.  
 Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can.  
 We build it of high-grade long-staple cotton, using the patented Goodyear method of group-ply construction, and sell it at a lower price than you are asked to pay for many "long discount" tires of unknown worth.

Compare these prices with NET prices you are asked to pay for "long discount" tires

## Prosperity!—Get Your Share Now

With the wind-up of the coal strike, apparently, so far as Patton is concerned there is no reason why our town will not soon enter the prosperity column.

With pay envelopes again in sight, many of the miners who have money will spend it for necessities which they denied themselves when there was no work.

Clothing, wearing apparel, furniture, hardware, and in fact every commodity is needed and will be in demand shortly.

The merchant who advertises NOW is the one who is GOING TO GET THE BUSINESS.

Various members of the Patton Fire Company have requested The Courier to print 1,000 extra copies of The Courier next week as an advertising medium for their Labor Day Celebration.

Cherry Tree used its local newspaper for advertising purposes at its recent centennial, and the result was three large crowds—one for each of the different days.

And Cherry Tree was able to do this because its merchants advertised handsomely in the home newspaper.

The Courier will issue the 1,000 extra copies next week if Patton's merchants patronize us by advertising.

### Will Benefit Pennsylvania Farmer

The detailed survey of Pennsylvania's \$22,000,000 swine industry, which is being made by the State Department of Agriculture, promises to show, in very concrete form, the real present-day position of the swine raiser. The survey was officially launched on August 1 with the holding of group conferences of the workers assigned to the compilation of statistics. These enumerators will distribute several thousand questionnaires, the answers to which will throw considerable light on the production of one of the most important livestock classes in the corn-belt area of the state.

It has been discovered that the bare figures given in the latest census, do not answer certain questions that the hog farmer might properly raise in regard to profitable feeding, management and marketing practices. The Pennsylvania State College is co-operating in making the survey, and Dr. H. B. Boyner, in charge of Animal Husbandry Extension, and college representative at the initial conference of the workers, stated that the completed survey would give a comprehensive view of this important industry in which such widespread interest has been developed.

"The population of Pennsylvania," says Dr. Boyner, "annually consumes over 700,000,000 pounds of pork. Our farms produced in 1921 less than one-fourth of this amount, fully three-

### fourths being shipped in from western markets.

This explains why the Pennsylvania farmer has, during the past year, averaged fully a dollar more than that of the Chicago market. This fact has not only encouraged the Pennsylvania breeder but has also made available to the consumer, a supply of fresh pork, country cured hams, and bacon." It is expected that the summaries and analysis of the figures obtained in this census, will be put in bulletin form for the benefit of all Pennsylvania residents interested in the subject.

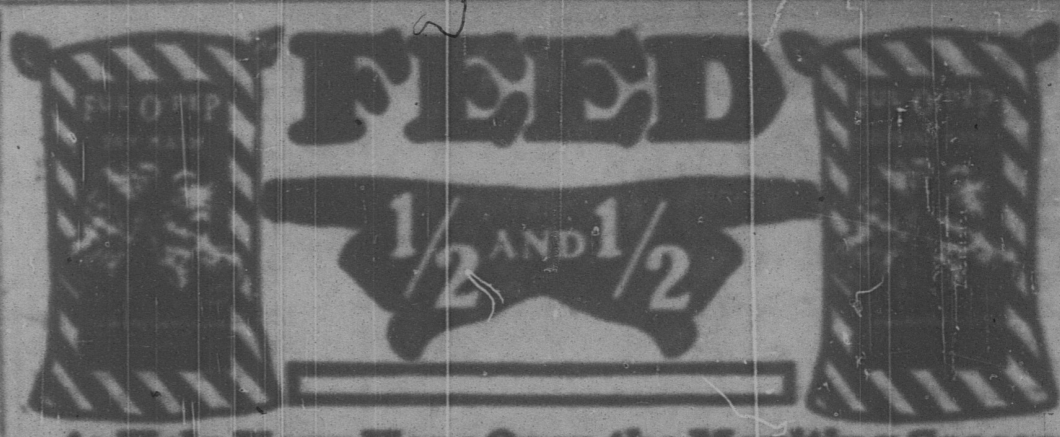

### Mrs. Julia Brices

**FEED**  
 1/2 AND 1/2  
**—to Help Your Hens Over the Moulting Season**  
 Now is the time to prepare your hens for big egg production during the fall and winter months. Don't let them linger along from four to six months moulting. Get them through the moult QUICK, because a moulting hen is an expense instead of a producer. Every day counts and the feeding method you employ now determines the profits biddy will produce for you later on.

**Try the FUL-O-PEP Way**  
 The best known feeding method during the moulting season, is half FUL-O-PEP DRY MASH and half FUL-O-PEP GROWING MASH. Keep it before your hens all the time and you will be agreeably surprised how quickly they will finish moulting and be back on the nests, shelling out the eggs in large numbers.

**FUL-O-PEP**  
**POULTRY FEEDS**  
 enable poultry raisers to get results from poultry that at one time were considered impossible. Ful-O-Pep Growing Mash for growing birds enables you to produce big healthy, early laying pullets at less cost than any feed known. Keep it before the growing stock all the time—don't stop feeding it until pullets are six months old. Then feed Ful-O-Pep Dry Mash—the feed that makes more eggs all the year round. These feeds have opened the door of opportunity to poultry raisers. Poultrymen everywhere are getting real results from these guaranteed feeds. Feed the Ful-O-Pep Way and your success with poultry is assured.  
 The famous Ful-O-Pep line of poultry feeds was originated and is produced by The Quaker Oats Company, Address Chicago, U. S. A., the largest manufacturing of Poultry feed in the world.

South America. Howard Grimes, son of Mrs. Sam Grimes, of High street, and Webster Jones, son of Chief of Police and Mrs. Frank Jones, of Lloyd street, left Ebensburg for New York to sail for Caracas, Venezuela.

Messrs. Grimes and Jones go south on an invitation from Robert Whitman, who was formerly located here as engineer for the Ebensburg Coal Company. He is now in charge of development work for the Standard Oil Company in Venezuela, and it is understood he makes a very attractive offer to the Ebensburg boys. The two young men left home with the heartiest good wishes of all of their

many friends.  
 Reads First Mass. The Rev. Father Maurus O'Neil, Rector of St. Mary's, and Mrs. James Back of Keystone avenue, Cresson, who was recently ordained to the priesthood by the late Bishop McCort of Altoona, celebrated his first mass Sunday at 11 o'clock in St. Francis Xavier's church.  
 Beaverdale Women Meet. BEAVERDALE—Mrs. Anna Kaufman was invited, a very good friend of the right forum early Monday morning when she sat from a porch at the Kaufman residence. The porch is about six feet from the ground. Dr. H. G. Diffenderfer sat the broken member.
