BOY'S LIFE SAVED BY FIRST AID EXPERT

Six-Year-Old Lad Was Lifo to Action of Telephone Man.

wouldn't dare go near them. Got \$1.25 pkg. of RAT-SNAP, inside of 6 weeks cleared them all out. Killed them by the score every night. Guess the rest were scared away. I'll never be without RAT-SNAP. These alone, 35¢, 65¢, \$1.25. Sold and guaranteed by C. J. Cordell's Hardware and the Minor's Co-Operative Store.

It was due to the quick thinking of Robert T. Widnall, a City First Instructor of the Bell Telephone Company, that six-year-old John O'Brien, of Philadelphia, is still today.

Robert T. Widnall
 sent of the car as it was about to go. Widnall first checked the profuse bleeding by well directed pressure of his fingers. Then, without releasing his hold, with the one hand and his teeth, he fastened a tourniquet out of two handkerchiefs. Despite the jolting of the car he succeeded in applying the compress and stopped the flow of blood.

THIS SUBSCRIBER GOT REAL KICK AT BEING "CUT OFF"

The introduction of the telephone among people with its use often leads to quite striking results. In Egypt, a small trader had a telephone installed in the back room of his store. The bell rang and the tradesman's servant answered. Upon being asked for the tradesman, the servant immediately cut the cord and carried the message to the store for his master to talk to the store.

Corn Show to be Greatest Ever Held. The greatest corn show ever held in the Eastern Section of the United States will be staged in Harrisburg in connection with the Seventh Annual State Fair Products Show, the fourth week in January. Last year more than 12,000 ears of corn were entered in the show while arrangements have been made for a display of at least twenty-five per cent larger for the coming show. The competitive districts of the State have been carefully revised for the coming year. Five classes will be provided and the state has been divided with due regard to climatic

as well as topographical conditions. Corn grown in sections of the state where the growing season is only ninety days or less, will not be forced to compete against corn grown in sections where the growing season is from 120 to 150 days. The State has produced an unusual corn crop this year and it is believed that the corn show will excel anything that has ever been attempted. More attention will also be given this year to the display of small grains and county agents in all sections of Pennsylvania are now arousing interest among the grain growers so that this exhibit will be considera-

ably larger than last year, by larger than that of last January. Evelyn Castrick, aged eight years, of Franklin Borough, was painfully injured Wednesday afternoon, when she was struck by an automobile. The accident occurred near the Franklin school building while the child was attempting to run across the street failing to notice the approaching car. She was taken to the office of Dr. George Martin, of Conemaugh, who dressed her injuries, after which she was removed to the parental home. The girl suffered bruises about the body and one shoulder.

THE VOICE WITH THE SMILE

When your Bell telephone operator answers our call, she says "Number, please?"

She says it with the pleasant rising inflection which expresses better than words her desire to serve you.

She was chosen for her ability and intelligence.

She has all of these qualities.

And in addition, she has "the voice with the smile."

It's not just a part of her "stock in trade."

The desire to serve her neighbors and friends is in her very nature.

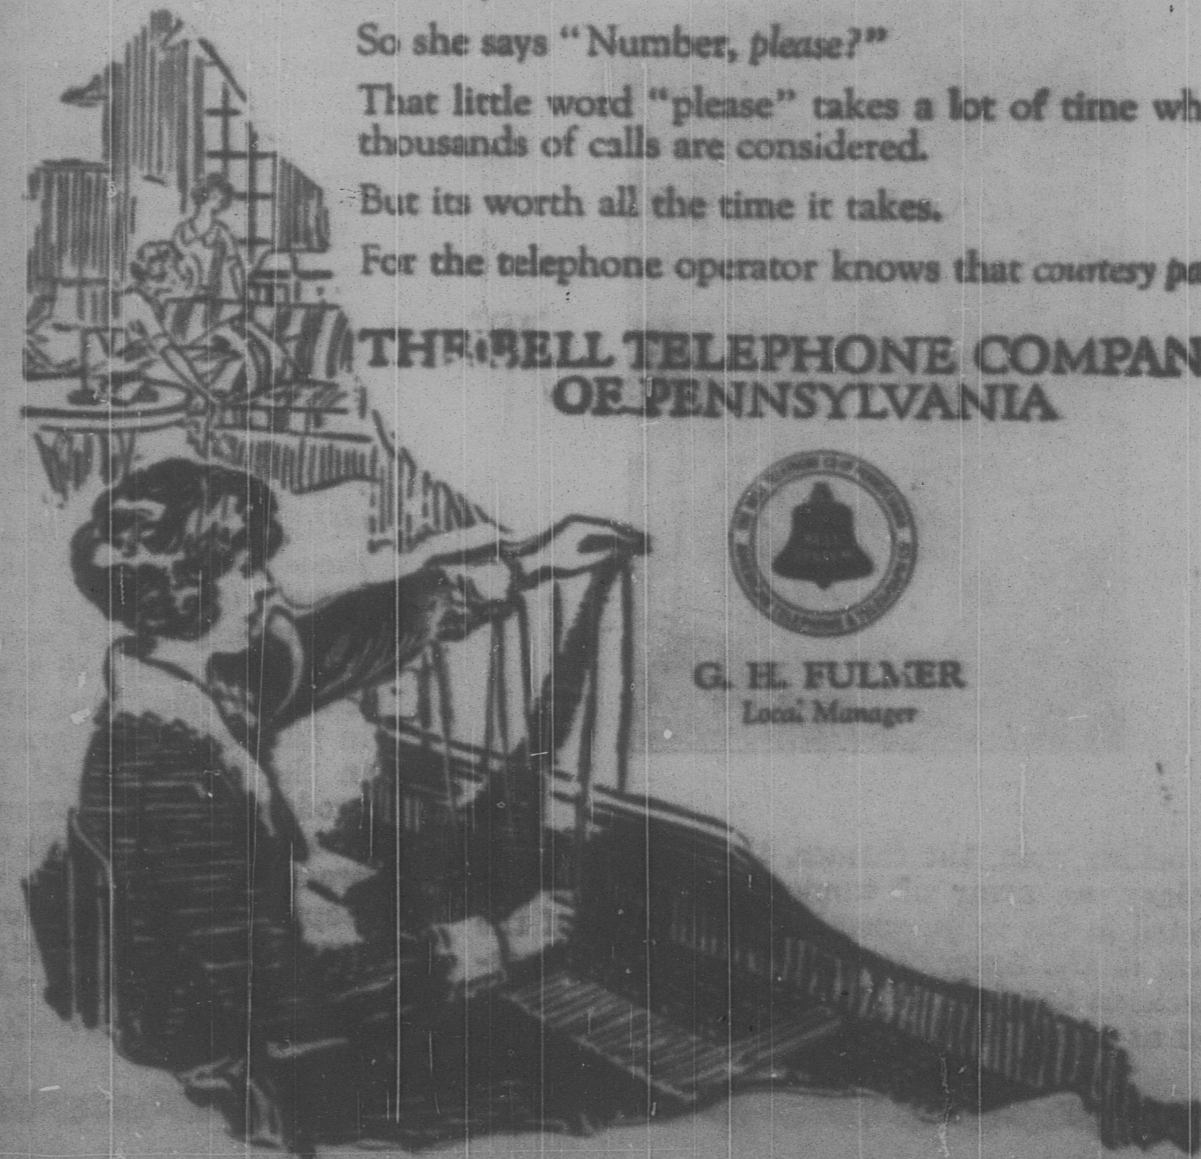

So she says "Number, please?"

That little word "please" takes a lot of time when thousands of calls are considered.

But it's worth all the time it takes.

For the telephone operator knows that courtesy pays.
