THIS BRICK HOME IS A WISE INVESTMENT

THE CHICKASAW—DESIGN A 501

When you build or buy a home, you are investing the greatest factor in your life. It is not only the home who profit by it, but the home who profit by it. And when you build, be sure to investigate the materials used. It is not enough to say that they are durable and produce the value of your home and your hard-earned savings. You must also see that it is necessary to see that the materials used are of the best. It is not enough to say that they are durable and produce the value of your home and your hard-earned savings. You must also see that it is necessary to see that the materials used are of the best. It is not enough to say that they are durable and produce the value of your home and your hard-earned savings. You must also see that it is necessary to see that the materials used are of the best.

Esquimaux Own Land in Common.
There is no suffrage question among the Esquimaux—the women own the land with the men and has equal voice in the council meetings. And there are no vexatious questions about property rights to settle because besides the also and personal belongings there is no property. The Esquimaux cannot conceive of land as belonging to any one person. When told how it is held as private property in the state, they showed great surprise and one old man asked if the white men also divided the ocean in the same way. World's Outlook.

Two Classes of Women.
In this woman's two worlds are divided into two main classes—those who don't believe all their husbands tell them and those who haven't any husbands.—Indianapolis News.

Beyond Comprehension.
Kent, whose searching analysis of the pure reason, probed deeper than any philosopher before him into the mystery of consciousness, confessed that two things filled him with awe, as beyond the faculty of the human mind to grasp—the immensity of the starry heavens, and the moral sense implanted in the soul of man.

Reduce Your Production Costs

Farming, like every other business, must cut down the overhead.
It is not a question of being able to afford a Fordson; it is a question of being able to continue farming on the old low-cost basis.
The farmer's problem is not all a sales problem; it is also a production problem. He must cut down the cost of production.
The Fordson does more work at a lower cost and in less time than the old hand methods.
Let us give you the proof. Write, phone or call today.
