## WARREN G. HARDING, CHIEF OF NATION, DIES

### President Dies Instantly And Without Warning

President Harding died instantly and without warning last night at 7:30 o'clock.

Death came to the Chief Executive while he was conferring with members of his family, and, according to an official statement issued by physicians, was apparently due to some brain involvement, probably an apoplexy.

The end came so suddenly that members of the official party could not be called. It came after a day which had been described by Brigadier General Sawyer, the President's personal physician, as the most satisfactory day the President had had since his illness began.

Their coming must have been unheralded, for a few of our residents were evidently caught by surprise, and are now in the law's net. Yes, Patton is DRY today.
