

Increased Driving Comfort Provided in Buick "Fours"

In adjusting the position of the driving seat, in lowering the steering column and in bringing the shift lever and emergency brake within the easiest possible reach of the driver's hand, Buick has provided additional comfort and satisfaction in the new four-cylinder models. Ease of handling is also an outstanding feature of the new Buick "four". In heavy traffic the abundant power of the famous valve-in-head engine and the quickness with which the car responds to every control enable it to glide in and out of traffic with the utmost facility, while Buick's excellent brakes assure perfect braking and safety under all conditions.

LESS APPLE VARIETIES ADVISED FOR PENN'A

The many varieties of apples are grown in many communities in Pennsylvania, is the opinion expressed by Paul Thayer, extension specialist in fruit at the Pennsylvania State College. In his judging work at some of the fairs, he finds as high as 125 distinct varieties on display. From the standpoint of the producer in securing a good yield and in controlling disease and insects, and from the consumer's viewpoint in purchasing a high quality apple, he believes that the number of varieties should be greatly reduced. Following the suggestion of the market conference in Harrisburg last spring, the Wayne County Agricultural Association voted to recommend for commercial growers five varieties—North-sun, Baldwin, Rome, Sturman and McIntosh. This plan Thayer believes to be a good one, and suggests that it may well be followed in other counties. However, he points out that due to varying soil conditions, elevation, latitude, and markets, the list will vary in different sections. Better and easier spraying, harvesting and marketing are the advantages of a small list of varieties for the commercial grower. This is especially true where cooperative packing and marketing is practiced.

Leap Saves Engineer, Fireman—
ROCHESTER—Leaping from the cab of a locomotive as it jumped the track and tumbled over along with six loaded coal cars just north of here Monday afternoon, Engineer J. B. Duncan and Fireman A. E. Johnston, both of Alliance, O., had narrow escapes from death. The accident occurred on the Pittsburgh, Ft. Wayne & Chicago railroad in the Rochester yards when the locomotive jumped the track while passing over a switch. Traffic was disrupted for several hours.

Undergoes Operation.

Miss Gertrude Meyer, aged 14 years, underwent an operation for appendicitis at the Spangier hospital Monday morning. Miss Meyer is a daughter of Mr. and Mrs. Warren Meyer and her home is at Garmantown.

Tumble Downs A Child—

LANCASTER—When he slipped down a steep 30-foot embankment at the rear of his home near Terre Hill Saturday afternoon, Park Sommers, 3 years old, fell into the Conestoga Creek and was drowned. The body was recovered by a neighbor in a row boat.

Strike Stops Cars Again—

SHENANDOGAN—The Schuylkill Electric Railway employees went on strike for the second time within two

weeks, at midnight Saturday owing to the arbitration committee failing to agree on wages and the reinstatement of two discharged employees. The traveling public was held up owing to the sudden breaking off of service.

To Farm School Association—
MEADVILLE—Invitations have been extended to every high school in Crawford county to send two delegates to a meeting to be held here next Saturday at which steps will be taken to form a literary and athletic association in this county. A committee consisting of County Superintendent P. J. Blair, T. E. Kinisley and F. T. Fisher of Conestoga has been named to prepare a preliminary program.

Nearly Seven Injured—
HARRISBURG—Sixteen persons were injured, two seriously, when an

extra express train on the Pennsylvania lines collided with the rear end of a passenger train near Highspire, seven miles south of here early Sunday. Inability to see the signals, due to a dense fog, is ascribed as the reason of the collision.

19 Injured in Crash—

STELTON—When a speeding express train crashed into the rear of another train, dishing a number of sleeping coaches, at Steelton, shortly after 3 o'clock Sunday morning, 19 persons were injured, two of them seriously, and five steel cars were hurled off the tracks and demolished.

Three Buried Alive in Mine—

BROOKVILLE—The bodies of two mine operators and a miner were found in a small mine at Beechwood, near here, late Sunday. They had been

missing since Saturday. Daniel McQueen and Le Hoffman, owners of the mine, and Finly Britton, a miner, all of Beechwood, left their homes Saturday and failed to reappear for dinner. A posse was organized and at dusk Sunday the searchers entered the mine. Near the entry they encountered a heavy fall of earth. After digging for several hours, the bodies were found. The victims had been crushed to death.

Dies Years After Injury—

POTTSVILLE—Catharine Curry, 21, while preparing to go to church Sunday morning, fell dead at her parents' home on Pierce street. Physicians said a brain tumor was the cause. Eight years ago the girl fell and her head struck a sharp piece of wood. The injury thus caused continued to develop although its presence was unsuspected.

Liquor Raids in State Co.—

ALTOONA—State Police, county officers and city police have been very active in cleaning up the illegal liquor traffic in this district during the past 10 days and have made an unusually large number of arrests and seizures. The State Police are working hard in the small mining districts in the mountains near here in a clean up drive.

Jumps From Fifth Floor—

PITTSBURGH—Fred T. Coleman, 60 of Natick, Mass., committed suicide by diving headfirst from the fifth floor of the Hotel Henry. Coleman was a salesman for the Putnam Shoe Manufacturing Company of Readville. A few days ago he is said to have told a chambermaid he was tired of living.

**Come in NOW!
and hear the**

Edison Turn-Table Comparison

The one best phonograph is not easy to find,—by the old "show-and-tell" method. You are confused by many demonstrations of many phonographs. You are influenced by salesmanship.

But all this is now changed. Mr. Edison has devised a scientific method of comparing phonographs. He has made it possible for you to hear the best known phonographs,—all in the same room,—all from exactly the same position.

Come in and hear the famous Edison Turn-Table

Comparison. You'll be able to *decide for yourself* which is the best phonograph. You'll know that your decision is right,—because the comparison is fair, and square,—and no one tries to influence or advise you.

Learn for yourself by scientific comparison.

1. How the Re-CREATION of music by the New Edison differs from the reproduction of music by the talking machines.
2. Which phonograph plays all records best.

Notice to Manufacturers and Representatives

The Talking Machines used in these tests are kept by us in the best possible condition. Manufacturers of such machines, or their representatives, are invited to inspect them, or regulate them, or to substitute other machines of the same make, of their own selection, of equal or greater value, at any time during business hours.

(Given only on request)

The Edison Turn-Table Comparison is conducted apart from the sales end of our business. It is a service for all music lovers, whether they come to buy or not. Come in whenever you have 10 minutes to spare, but kindly ask for the Edison Turn-Table Comparison, since it is given only upon definite request.
