HELP THE LEGION IN THEIR BENEFIT AFFAIRS.

The American Legion is fast earning for itself a name that will go down through the ages as "builders."
The activities of this organization all over the land are those that are for good, and for civic betterment.
In the larger communities the result of the work they intend is already evident. In the smaller hamlets the evidence is yet to come.

A few months ago the American Legion Post of Patton had a big open meeting night and representative citizens of the town were in attendance in plenty.

Prominent speakers were present, the work of the Legion was outlined, and everybody had a good time. Legion boosters were plenty on that evening.

Let's not forget the American Legion in the rush of things.

Let every ex-service man see that he is a member of the Legion, for it is both a privilege and an honor to be a member. It is not the lot of all our readers to be members but they can harbor a true American spirit by being Legion boosters.

It is the spirit that was evidenced in the armies of the United States during the late war, that is the spirit of the Legion.

A BACKWARD SEASON.

The present season is one of the most backward in years in this section of Pennsylvania and the farmers are compelled to use every moment that is fit in preparation of the soil and planting of the crops.

A late and summery fall is to be desired now. It is only by this that all the crops adapted to the climate of this section can mature. The state department of agriculture in a bulletin states that planting is from two weeks to a month behind in all parts of the state, and we believe that northern Cambria can be included in the portions that are a month behind.

Although now the first week in June, we have really had no weather that has been suggestive of the proverbial springtime.

A GOOD PHOTO PLAY COMES TO PATTON.

On Monday, Tuesday and Wednesday of next week the management of the Grand Theatre, of this place, will have as its attraction, "The White Sister," reputed to be one of the best motion picture attractions in the history of the screen.

The showing of this great picture here will be for the benefit of St. George's church. Press critics have endorsed it in the most glowing of terms. People in this community who have seen it in the cities announce their intention of again seeing it next week.

It is the public that makes a picture a success, but it rests with the producers to see that pictures are produced to suit the public if the possibilities of motion pictures are to reach the pinnacle possible.

THE TIME IS DRAWING NEARER AND NEARER.

The time for the Central District Firemen's Convention in Patton is drawing nearer and nearer, and the Patton Firemen have been on the job with a vigor that insures the success of the venture.

This convention must be put across—and put across well. Representatives of the fire departments of cities several times the population of Patton are coming here, and the impression they will take home with them will be a lasting one.

Co-operation with the fire department is all they ask in the present, and a successful convention is the duty of every one of Patton's citizens.
