

### Future Farmers Have a Trip to Washington

A group of 300 boys and girls who are attending the University of Maryland for a summer farm course being addressed by Secretary of Agriculture Wallace at the Agriculture department. Mr. Wallace is on the right and on the left is First Assistant Postmaster General Bartlett, who extended an invitation to the children to visit the Post Office department.

### Municipal Stadium of Chicago Nearly Completed

View of Chicago's new Municipal stadium in Grant Park, near the Field Museum, which is nearly completed. It will be formally opened early in September by the policemen's athletic carnival.

### Davis Honored by Iroquois Club

Members of the Iroquois club of Chicago at Clarkburg, W. Va., making H. J. Davis, Democratic Presidential nominee, an honorary member of the organization. He is the eighth man in line to be so honored.

### Omaha Baby Made Youngest Klansman

An Omaha baby was made the youngest Klansman in the United States. The baby was one of a class of candidates initiated at a big open air ceremony recently held just outside of Omaha, Neb. The photograph shows a Klansman holding his baby son, clothed in his white robes, while the lot takes the oath of the Klan.

### MAKES RECORD CATCH

In view of the previous clamper, H. J. Malen, a Los Angeles stock broker and sportsman, caught a 55-pound broadbill swordfish and broke the world's record. Malen's catch was 12 feet 6 inches long and had a girth of 4 feet 10 inches. Its bill was 45 inches long. Photograph shows Malen being congratulated by Nick Bennett.

### SHE IS POLICEWOMAN

Mrs. Douglas McArthur, wife of General McArthur, how detailed in the Philippines, has just been appointed a special officer of the Manila police force. Her first arrest was of a Filipino accused of beating his boss.

### Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

#### RED BAT FAMILY

"My children, the days are over when you cling to me as I fly."

"When you were little babies and I went off hunting at night you held on to me, as I did not think you were old enough to be left at home and I had no one with whom to leave you."

"Some mothers, believe, have neighbors who come in and look after the children if they have to go out."

"That Mother Red Bat has no neighbors she can ask to do this. All the other mother red bats are doing the same and I wouldn't want to ask a stranger to care for my little ones."

"Now you are old enough to be left alone. I will go and get some good food for you, though."

"What would you like, my loves, mosquitoes, gnats or a little moth or two, or three?"

"Oh, bring us some mosquitoes, please, dear Mother Red Bat," her three little children begged.

"Mosquitoes I'll bring, then," said Mother Red Bat.

She was apt to begin her marketing earlier than many bats did, and this was true of the whole Red Bat family. They thought they had a nice pick of good things to eat then.

Mother Red Bat certainly could pick out delicious morsels, and how wonderfully she picked out what she wanted. She did not bother about seeing her food. She could see by hearing and by good things to eat nearby.

The children were very affectionate and playful and one day a nice little family of two bats, a nice little family of two bats, could not be found, Mother Red Bat knew that.

When the children were at home they played with each other and talked and laughed in the same old-fashioned way that they had done long ago. Mother Red Bat had not forgotten to get old bats to play with.

They were old bats, but they were so affectionate and so playful that they were just like the little ones.

"They thought it was very kind of me, that would only make me unhappy, and they didn't want to be unhappy."

"No, they wanted all the love they could have. So they played and had a beautiful time."

"Before long," Mother Red Bat said, when she had come home from her marketing and after they had had a splendid feast, "we will have to think about our plans for the fall and winter."

"We must go South."

"Some may not know that bats are fashionable, just as the birds are, and that we travel and live in the places in the winter and southern in the summer."

"Of course it is not only because we care about fashion. In fact, the whole is it not that at all?"

"It is simply because we must go where it is warm. We don't like the cold weather. If it gets cold here we must simply curl up and go to sleep."

"We know how to do that!"

"But, my little loves," Mother Red Bat continued, "I want to see you saying unkind things about us this evening."

"It hurt my hot feelings dreadfully. Didn't they know I was destroying any number of their enemies?"

"They talked about mosquitoes, and how mosquitoes hit them, and then they said unkind things about bats."

"Oh, I wished so I had been able to speak the language of people for I would have said to them, 'People, we never do you any harm. We are not dirty, and we do not get into your hair. We are, though, killing many, many mosquitoes, and not only are we enjoying ourselves, but we are doing an enormous amount of good.'"

"Please, people, remember we are your friends, so please do not talk about us unfairly and unkindly."

"That is what I would have said to them. But let us all have another mosquito—one apiece—before we take a nap, and that will cheer us up."

So the Red Bat family had yet one more mosquito before bedtime came.

### The KITCHEN CABINET

No matter what your experience may have been the various fragments of your life may be joined to make success, just as the smallest bits of gold are used in the most beautiful mosaic.

#### MORE GOOD THINGS

There is such a wealth of good things for the table at this season that it is not hard to find a variety.

#### Tomato Stuffed With Corn

Cut out a piece around the stem of the tomato, and scoop out the centers; cut off the tops of corn on the cob, leaving the husks on the ears. Sprinkle a little salt on the inside of the tomatoes, add a bit of butter to the corn. Set the pieces cut from the tomatoes in place and put the tomatoes in a buttered baking dish. Bake in a moderate oven until the tomato is cooked.

#### Wafer Corn Bread

Mix thoroughly two cupfuls of finely ground corn meal with one-half teaspoonful of salt, two teaspoonfuls of baking powder. Beat one egg, add two cupfuls of milk, stir into this two tablespoonfuls of molasses which has been heated and then dissolve one tablespoonful of lard in the mixture and heat for five minutes—this is the important part of the process. Have ready two shallow pans, greased and floured and pour on the batter in as thin a layer as possible—less than one-fourth inch in thickness. Bake in a hot oven until brown. Cut quickly and serve smoking hot.

#### Vegetable Salad

Vegetable Salad.—Cut one-fourth of a cupful of French dressing and one-fourth cupful each of shredded cabbage, carrot, sliced celery and radishes and one-half cupful of chopped, cooked beans. Toss and mix well with two forks then serve on lettuce.

#### South American Chocolate

Melt one-half pound of sweet chocolate over hot water, add one cupful of very thick cream. Beat the cream first and mix well. Add six cupfuls of scalded milk and beat until a thick cream forms on top and leave over just until you see a film of cream and carry in a vacuum bottle with a few pieces of ice.

#### All hail to good health!

Have lived a long life, with never an aching side and quiet. This comes to wisdom, ye peasants, and try it.

#### WARM WEATHER FOODS

A dessert which will be enjoyed during the warm days is:

#### Molded Fig Custard

Soak one-half package of gelatin and dissolve it in one cupful of boiling milk. Soak one pound of figs (the pulled figs) in water to cover until quite soft. Split each in half, dip into dissolved gelatin and use to line the sides of circular molds. Make a soft custard of a pint of milk, five egg yolks and one-half cupful of sugar. When well-thickened add the rest of the gelatin and with this fill the fig-lined molds. When cold, unmold by dipping into hot water. File on top of each some gooseberry jelly and eat with plain, thick cream.

#### Chocolate Junket

Melt a square of chocolate, add three tablespoonfuls of boiling water. Beat a quart of milk just lukewarm. Dissolve one jacket tablet in a tablespoonful of cold water. Add one-quarter of a cupful of sugar to the milk, with a tablespoonful of vanilla; stir until well mixed; add the jacket and the chocolate and pour into shallow cups.

#### Emergency Bread Pudding

Cut six or more slices of bread and remove crusts, spread with butter and jam, arrange in a serving dish and pour over a pint of hot grape juice. Surround with a soft custard or with whipped cream and chopped nuts. Serve hot or cold.

#### Coffee Ambrosia

Make one quart of strong coffee; allow this to cool after straining, then add one-half cupful of honey, a few drops of almond extract, a pinch of powdered mace, one cupful of lard milk; mix well. Leave in glasses with a few spoonfuls of ice and a spoonful of whipped cream.

Lettuce and Peanut Salad.—Prepare fresh lettuce and sprinkle with finely-chopped fresh peas. Serve with a good French dressing poured over all, well chilled.

Lemon Syrup.—This is nice to use in a hot drink. Take one cupful water, one-third of a cupful of lemon juice and one-half cupful of sugar; boil for a few minutes and bottle. A spoonful of the syrup to a glass water with ice.

Hot steamed plum pones served with head lettuce with a good dry dressing makes a most tasty and a simple one to prepare.

### BROUGHT HOME FROM MEXICO ON STRETCHER

#### But Mrs. Herman Is Now in Good Health, Thanks to Tanlac.

A few years ago Mrs. M. E. Herman, 215 Hitchings St., San Antonio, Texas, "returned to the states from Monterey, Mexico," she says, "in such a low state of health that she had to be carried to her home on a stretcher." As time went on and she still languished in the throes of "nerve exhaustion, stomach disorders and bodily weakness," she determined, "on the advice of her druggist," to try Tanlac, which she declares "brought back my health and strength after I had almost despaired of ever getting well."

The results of Tanlac in the case of Mrs. Herman, while indeed remarkable, are by no means unusual for

Tanlac, as many hundreds of people everywhere have testified to having tasted the famous medicine with no less wonderful results.

"I returned from Mexico," said Mrs. Herman, "so thin and weak that I found my life was going to be cut short. I could neither eat or sleep in a natural way and it seemed at times that heart palpitation and nerve exhaustion would take me away."

"The makers of Tanlac will always have my heartfelt thanks, for it is to Tanlac that I attribute my recovery and present good health. Tanlac is a blessing from heaven to me, that is the way I think about it."

Tanlac is for sale by all good druggists. Accept no substitutes. Over 46 Million bottles sold.

Tanlac Vegetable Pills, for constipation, made and recommended by the manufacturers of TANLAC.

#### Go From College to Marriage Altar

To judge from statistics compiled at Goucher college, marriage continues to be the most popular vocation among the students. Of nine different kinds of occupations in which 2,276 Goucher alumnæ are engaged, 979, or about 40 per cent, are "married and are intelligent homemakers." More than 90 per cent, or 2,004, including the 979 married ones, are listed as being engaged in "the duties of home and society."

The unmarried graduates are occupied as follows: 653 are teaching or are engaged in the work of educational administration; 172 are in business; 119 are in social work; 52 are in scientific work; 23 are physicians; 26 are librarians; 9 are doing statistical work; 42 are doing varied work, such as encouraging community music, sponsoring community dramatics and other activities.—Chicago News.

#### WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years Swamp-Root has enjoyed the highest reputation among the medical profession for the relief of urinary ailments, kidney troubles, and bladder difficulties.

It is a valuable prescription. Swamp-Root is a strengthening medicine, it helps the urinary tract and bladder do the work nature intended they should do.

Swamp-Root has about the best of you. It is sold by all druggists on its merits. It should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once. However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing, be sure and mention this paper.—Advertisement.

Possible "Come on, People! Come on, and view the wonderful petrified man!" roared the Barker outside of the tent which had been erected on a prominent corner in Wauwateerfield. "He was turned to stone while asleep, and remains in the same attitude and condition today."

"I believe I'll go in and take a look at him," said Farmer Flintlock to his companion. "My hired man disparaged about ten days ago, and lively as not this is him."—Kansas City Star.

Don't think if you get over a substitute when an advertised product is called for. Buy the product which never comes back.

It is the custom in many of the towns in Brittany for all couples who become engaged during the year to be married the same day.

#### OU PONT SPORTSMAN'S SERVICE

More hunting for farmer and sportsman! Don't fail to send for this free book, "Hunting Posted Property". It shows you how farmer and sportsman can get together to their mutual advantage. Sportsmen spend more time hunting for shooting grounds than they do hunting game. More property is being posted each year. This book will help you find more and better shooting. Write for your copy today—it's free.

E. L. DU PONT DE NEMOURS & CO., Inc. Sporting Powder Division, Wilmington, Del.

### Sure Relief FOR INDIGESTION

6 BELLANS Hot Water Sure Relief BELLANS

For temporary protection of a river bank being undermined by flood and strong currents, approximately 2,000 discarded automobile bodies were sunk in depths of from 20 to 40 feet. Placed in a barrier along the shore line, the cast-off vehicle hulks formed a "mattress" to hold the land from slipping into the stream. Many that did not readily submerge were filled with rock. It is said that the plan checked erosion of the bank, until permanent dikes could be installed.—Popular Mechanics Magazine.

#### Odd Use for Auto Bodies

For temporary protection of a river bank being undermined by flood and strong currents, approximately 2,000 discarded automobile bodies were sunk in depths of from 20 to 40 feet. Placed in a barrier along the shore line, the cast-off vehicle hulks formed a "mattress" to hold the land from slipping into the stream. Many that did not readily submerge were filled with rock. It is said that the plan checked erosion of the bank, until permanent dikes could be installed.—Popular Mechanics Magazine.
