GOOD ROADS BOOSTERS REPORT ON CONFERENCE

The Good Roads Association of Reade Township held an enthusiastic meeting in the hall at Flinton last Thursday evening. The purpose of the meeting was to inform the members of the association as well as all the voters of Reade, Dean and White townships of the favorable attitude of the County Commissioners towards construction of a permanent road on Route No. 234, and also to urge upon them the necessity of supporting the proposed county bond issue on the 15th of next month, in order that the good roads program may be carried out in other parts of this township as well as in other townships concerned.

H. L. Cannon, who gave a report of the committee's interview with the commissioners, expressed the sentiment of the entire association when he referred to the courtesy which the entire board of commissioners received the delegation. He further stated that they had been entirely fair and honest in their dealings with the township, and that he had implicit faith in their integrity to carry out the promises made concerning the road in that section.

The next meeting of the association will be on Saturday evening of this week in the hall at Van Orner.

COMMISSIONERS MOVE TO PROTECT BALLOT BOXES

The county commissioners Monday announced that they have provided a room in the basement of the court house in which Sheriff George M. Keller will keep the ballot boxes placed in his custody in the congressional contest. The commissioners stated that the door of the room has been equipped with a new lock, all three keys of which were turned over to Sheriff Keller. The windows of the room provided for the sheriff are heavily barred, it is stated.

It was explained that the room was placed at the disposal of the sheriff as the result of testimony at some of the contest hearings that other persons besides the sheriff had keys to the Sheriff's office. Among those included in the group having access to the office by means of keys to the doors were several janitors. The commissioners made it plain that nobody other than the Sheriff himself will have keys to the new room.

PLEADERS SENTENCED IN COURT ON MONDAY

Edward Howe, of Johnstown, pleaded guilty in Court at Ebensburg on Monday morning to the theft of an automobile from the Pollock Schwartz garage and was sentenced to serve six months in the county jail.

Howe formerly was employed by the Pollock Schwartz company. He said he took the automobile and drove it about Johnstown for several days, then took it to Pittsburg where he abandoned the machine. The automobile later was recovered.

President Judge John E. Evans and Judge John H. McCann presided in court on Monday morning. The preliminary list of civil cases for the June term of court was called, there being 92 cases on the calendar.

Walter Lucas, Frank James and James Wilson, all of Allegheny, pleaded guilty to the transportation and possession of liquor in Gallatin and were sentenced each to pay the costs of a fine of \$100 and to serve not less than one day nor more than three years in the county jail.

Peter Fink, charged with two offenses against morality, pleaded guilty and was sentenced on the one count to pay the costs of prosecution and to serve not less than six months or more than one year in the county jail. On the other charge he was ordered to serve not less than six months nor more than one year in the county jail, the sentence to begin at the expiration of the parole period of the first sentence.

Thomas Smith, of Conemaugh, pleaded guilty to a charge of carrying concealed weapons and was sentenced to pay the costs and serve 3 months in the county jail.

Louis Punnar, charged by his wife Mary Punnar, with felonious assault and battery, was ordered to pay the costs and further sentence was suspended.

Shirley Mae McMullen, aged 7, a daughter of Mr. and Mrs. William McMullen, of Ashville, is in a serious condition at the Allegheny hospital suffering of a fracture of the skull. The girl was injured on Monday evening when she was hit by an automobile.

The girl was on the highway opposite the Buckhorn hotel when a speeding car, traveling on the wrong side of the highway, ran the girl down. She was rendered unconscious. A passing car took the girl to the hospital. Her condition is regarded as serious.

HIGH SCHOOL FOR SUMMERHILL TWP.

At a recent meeting of the board of school directors of Summerhill township it was mutually agreed to establish a high school in the township school building at Wilmore.

Heretofore much difficulty has been encountered in transporting the high school pupils by bus during the winter months to Beavertown. Besides the high school at that place will have enough pupils in that town and adjoining region.

The high school in Wilmore is designed to furnish an entire high school course not only for pupils of Summerhill township, North and Wilmore, but also for Summerhill, North and Craigie townships. In all 23 schools, Wilmore is easy of access by railroad and by the Old Portage State highway, and as the directors of these places have heretofore experienced considerable difficulty in providing facilities for their high school pupils this arrangement will undoubtedly be very acceptable to them.

A considerable difficulty and disappointment has heretofore been experienced in transporting children to and from school, especially in inclement seasons and when the roads are badly drifted during the winter by the use of liquid ice, and that the board will invite bids for the conveyance of pupils by other means. By having a school for the lower grades at the school house on Principle hill and one in the south of Wilmore it is believed that this can be more satisfactory and cheaply done.

The school house of Summerhill township in Wilmore is one of the finest in the county, being in a healthy location, with good water and a 9 acre area of ground surrounding it. It is thought that some time in the future one of four agricultural schools in the county may be established there.

Orto-Leskniak.

Miss Mary Leskniak, daughter of Mr. and Mrs. John Leskniak and Stephen Orto, of Mr. and Mrs. Stephen Orto, both of Hastings, were united in marriage recently in St. Bernard's Catholic church at a nuptial high mass celebrated by the Rev. Father Stephen O. S. B. Their attendants were Miss Mary Shultz and Francis Domolik. Upon their return from an extended wedding trip Mr. and Mrs. Orto will reside in Hastings.

INTERESTING FACTS ABOUT OUR BUSINESS

Penn Central Light and Power Company supplies electric light and power and gas in widely separated sections of Pennsylvania.

Communities served	98
Electric Customers	33,591
Gas Customers	6,285
Women Employees	87
Men Employees	487
Number of Generating Stations	4
Horsepower of Stations	61,100
Transmission Substations	66
Miles of High Tension Transmission Line	388
Miles of Distribution Line	800

Many of the state's principal industries use our electric power. Among the largest industries served are steel, coal mining, silica brick, sand, limestone, ice and silk. The industries served by this company employ over 74,000 people. Over 6,200 people own Penn Central shares; in addition, 366 have invested in shares on time payment plan.

That this essential business is one of stability and strength is evidenced by the constant growth of our many sided service.

PENN CENTRAL LIGHT & POWER CO. PATTON, PA.

AS THE world's largest manufacturers of farm electric plants, we have been working for months on the development of a lighting plant that could be sold at a radically lower price—a price so low that it would bring electricity within the reach of every farm home in America.

We knew that a million farm homes were ready for electricity—that a million farmers realized the money-saving, time-saving value of electricity—that a million farm women had learned that electricity would lighten the burdens of farm life and bring new happiness and new opportunities to their families.

A Price That Is Revolutionary

We realized that a small reduction in price would not be enough. It must be revolutionary—drastic. And we want to be able to offer this plant on very easy terms—so that every farm home, whether owned or rented, could have the benefits that are so much appreciated on the 200,000 farms where Delco-Light is now in use.

And Now It's Ready

Today the new Delco-Light is ready. It is more than we had hoped. Quantity production—

modern engineering—millions of dollars worth of machinery—research and invention—have produced the Delco-Light that can make all farms electrically lighted farms.

A 600-Watt Non-Storage-Battery Plant

The new plant is a genuine Delco-Light in every respect—full 600-watt capacity, strong, sturdily built, economical in operation. It is equipped with a standard Delco starter and an economical starting battery. And its price is only \$195 f. o. b. Dayton—the lowest price and the greatest value ever offered in a Delco-Light electric plant.

Complete Installation at a Remarkably Small Cost

In addition to this, special arrangements have been made whereby the Delco-Light dealer in your community will install your plant and wire your house for five lights, to be located wherever you specify. You will receive with the plant five beautiful spun-brass lighting fixtures complete with bulbs.

And all of this—plant, installation, wiring, fixtures, everything

ready to turn on the lights—will cost you only \$53, in addition to the price of the plant itself.

A Small Down Payment—Balance on Easy Terms

Finally, we have arranged that this new low cost Delco-Light, completely installed, can be paid on terms so easy that anyone can take advantage of them. The total cost is only \$248, including freight a little more west of the Mississippi. But you make only a small down payment. The balance is payable on easy terms, arranged to suit your convenience.

Ask for Details

Never before has such an offer been made. Never before has Delco-Light cost so little and been so easy to buy. It means that any farm home—your home—can have Delco-Light today.

At the bottom of this advertisement appear the name and address of the Delco-Light dealer for your community. Call on him, write, or telephone for full information—specifications of the plant, illustrations of the fixtures that come with it, details of our complete installation and wiring plan, and the figures that show how easily you can now get Delco-Light.
