Our Dream Come True

"Well, here it is Woof, Woof. Our dreams come true. Money in the bank and at last we are in a position to make an investment that will bring in some extra dollars. Aren't you now glad we had sense enough to make a family budget and courage enough to carry it through?"

THE "BUDGET" WAY IS THE ONLY WAY. It means to so regulate your affairs that you always spend less than you make. The difference goes into the bank every pay day. It draws interest and soon you have enough to invest in good bonds or property. We can help you all along the road. We pay interest on deposits and when you are ready to invest we can find just the high interest paying bond or property you want.

COME IN AND ASK US TO EXPLAIN IN DETAIL.

THE EQUIPMENT BEHIND YOUR TELEPHONE

ON DECEMBER 31st, last, there were 899,949 telephones served by this company in Pennsylvania.

The cost of the telephone plant and equipment as shown on its books was $191,400,000.

$212 per telephone, on an average, divided as follows:

Land and buildings	$28.67	per telephone
Switchboard and other central office equipment	58.53	" "
Outside plant, poles, cables, wires, subscribers' equipment, etc.	121.03	" "
Supplies, furniture, repair shop equipment, motor vehicles, tools, etc.	3.77	" "
Total	$212.00	per telephone

Ten years ago the average was but $129 per telephone. Such has been the effect of the rising cost of materials on the telephone plant during the period of its greatest growth, despite a thousand and one economies and improvements in engineering and construction.

But perhaps what is of most interest to the user of telephone service is the volume of equipment behind the telephone instrument itself.

Not merely a pair of wires and a few switches at the other end, but a great volume and complication of apparatus, much of it as delicately adjusted as a watch.

And a keen, twenty-four-hour-a-day organization of 22,000 skilled men and women.

OVER 700 LIQUOR LAW CASES A YEAR

About 150 cases involving infractions of the liquor laws have been disposed of by the Johnstown City police court since the first of the year, according to Mayor Franke of that city. These figures are for cases in which penalties were imposed. Under the city ordinances the Mayor has the power to impose a maximum penalty of $100 and costs or 30 days in jail. He cannot inflict both the fine and the jail sentence.

In the Cambria county courts, District Attorney D. P. Weimer said the number of liquor law cases at each session of quarter sessions court has run from 65 to 75, which has been the average for some time. For the coming term the trial lists have been loaned beyond the average by recent activities of the state constabulary in Johnstown and vicinity.

There have also been a large number of Cambria county cases before the United States Commissioner and returned to United States Courts for trial.

The otal number of Cambria county defendants in liquor cases appear to be running well over 700 a year, about two for each day, including legal justice of the peace and borough office dispositions.
