Ask Dad-See If He Knows

Father and mother are always thinking of your welfare - there isn't a thing within reason they wouldn't do for you.

But they may unknowingly have been risking your life every day.

When you are at dinner tonight with dad, ask him this question:

"Dad, is our school firesafe?"

Perhaps he won't be able to answerhe may not know.

Ask dad if he knows that somewhere in the country a schoolhouse burns every day. Ask him if he knows that one-third of all the schoolhouses in the country are nothing better than firetraps - maybe your school is one of them.

Of course dad knows that buildings can be built that will not burn. They are being built everywhere, every day.

If your school is firesafe, you're lucky. If it isn't, ask dad what he is going to do about it. You have a right to know.

The highest type of firesafe construction is concrete. Our illustrated booklet "Concrete Schoolhouses" contains a wealth of information on firesafe construction with which every parent ought to be familian. Write today for your free copy.
