

Is your car a General Motors Car?

IF YOU own a Chevrolet, a Pontiac, an Oldsmobile, an Oakland, a Buick or a Cadillac, you own a General Motors car.

General Motors is a family of companies building motor cars and trucks and such other famous automotive products as Fisher Bodies, Delco and Remy electrical systems, Harrison radiators and AC spark plugs.

In other words, General Motors has every facility and every incentive to maintain quality and to offer value for the price; and the current models of General Motors cars are offered as the greatest values in the history of the automobile industry.
