ESSAY THAT WON THE FIRST PRIZE IN THE RECENT CONTEST IN CONJUNCTION WITH MUSIC-WEEK IN PATTON.

During Music Week, recently held in Patton, an essay that won first prize, was written by Miss Olive Rumbaugh, and is as follows:

What Music Can Do For Me. Music is universal in its appeal to the human race and you seldom find an individual upon whom it does not have some effect.

Music can do things for me and for everyone that nothing else can do. Where is the man that has never felt a thrill upon hearing a good rendering of our national anthem or who has not been inspired at one time or another by the hearing of some sacred hymn?

Music is comforting and quieting in its effect. Mothers from the earliest times have cooed their children by lullabies and these lullabies have been remembered and in later years men and women have been comforted by hearing or by merely recalling songs heard in their childhood.

There are various ways of educating oneself besides by means of the written page and music is one of the best of these. People have been made to see and feel things by music that could not be brought to them by any other means.

A knowledge and an appreciation of music is always an introduction into the best circles of society anywhere and it is a help in becoming acquainted in a strange community.

Music can be a means of inspiration and help to me by increasing my composit for enjoyment and by making me better fitted companion-ship with my fellows.
