Child's Health Maintained By Wholesome Diet

Modern parents are leading more and more the old Greek idea of training the strength of the future. They are watching the price of a sound body in a sound body.

Good health is built primarily on the foundation of right food. The sort of food the child has determines to a large extent the fitness of the man or woman.

Children have to be taught to like the foods that are good for them. In the same way that they have to be taught arithmetic and history, boys and girls are not born with any particular desire for cereals or for bread.

Many mothers unconsciously put their children under health handicaps by allowing them to make their own selection in the matter of eating candy, fruit, nuts and cookies. By so doing they set a precedent in the matter of other foods and make the teaching of good nutrition harder.

Foreign Dishes Bring Added Zest to Dinner

Height of my culinary ambition always has been to make dinner each day a gastronomic masterpiece, nuanced and perfected like a stately rhapsody.

Convict Blames Dog Bite.

Bellfonte, Pa., July 25.—Arrested for breaking into the store of O. J. Roberts at Martha Furnace, Harold Newman, 29 years old of Hannah Furnace, blamed his criminal tendencies on the bite of a dog when he was a child. Newman was caught by the state police three days after burgulary, said that he had been bitten by a dog when a child and always became possessed with criminal tendencies at this time of the year. Judge Keiler gave him five to ten years in Western Penitentiary, in hope that by the time he gets out he will be over "that way."
