BY ARTHUR BRISBANE

"GOING TO GET DRUNK." \$10,000,000,000 CONCERN. RAW WHEAT FOR VITAMIN B. ANDY WAS WRONG.

This nation is drifting toward a costly coal strike, set for April in the central coal fields. The Yankee farmer "going to town to get drunk, and Lord, how I dread it!" was no more foolish than a country that foresees industrial civil war, surely coming, and does nothing to prevent it.

The people own the coal fields and everything else in the nation, under the right of eminent domain, they can do as they choose.

They suffer the loss and inconvenience of all strikes, pay the bill in the end, and still they "go to town to get drunk."

The United States Post Office definitely forbids sending the "Decameron" by Boccaccio, through the mails. This is another wise decision which should not have been postponed so long.

Standard Oil in the last three months has paid dividends of more than \$55,000,000. That's at the rate of five per cent on more than four billion dollars; so there is a four billion dollar concern right there.

If you wait a few years there will be a ten billion dollar concern. But, as you know, Mr. Rockefeller doesn't own all of it, or even half of it.

A great deal of Standard Oil prosperity, by the way, has been achieved in a market of hard competition by intelligent newspaper advertising. It is to be hoped that the able managers know that, and realize that it pays to talk directly to the people through newspaper advertising, anywhere.

Paris, advised by Andre Laphin eats raw wheat and feels better. Monsieur Laphin says a table spoonful of germinating wheat, eaten before luncheon, supplies vitamins lacking in other foods, especially the vitamin B, that stimulates nervous energy.

Roman soldiers, they marched toward Paris under Caesar, ate raw wheat slung in a bag at the belt, not bothering to soften it by germinating in water. Their skulls, dug up now, show marvellously strong teeth, that are ground down, but not one missing or decayed.

Good bread, if chewed well, is better for you, however.

Governor Martin, of Florida, has forbidden race track gambling in his state, and is to be congratulated. Less gambling money will go to Miami and other gambling points, but in the long run the state will be better off.

It will attract fewer blacklegs, thieves and other undesirable.

Hubert T. Parson, president of the Woolworth company, who deals, through his stores, with millions of Americans, predicts that this spring's business, generally, will be the biggest in the history of the United States. That should comfort the pessimists.

This world will be better off, a safer place for human beings and the animals will be happier when all life except human life, shall have vanished from the elephant in the jungle to the typhoid germs in drinking water.

If there were no crocodiles there would be no sleeping sickness. If there were no mosquitoes there would be no yellow fever, no malaria. If there were no cats or dogs many diseases would disappear. Children get them from the fur of "pets." If there were no rats or ground squirrels to feed fleas, no fleas to bite humans, there would be no bubonic plague, and if there were no germs spread by Jack of human cleanliness, there would be no deadly typhus.

The Snappy Eight held a farewell party at the Morey home last Monday evening in honor of Catherine Ann Dinsmore, who will make her home in Cleveland in the near future. Those present were Catherine Ann Dinsmore, Betty Grant, Jean Blair, Ann Catherine Gregg, Betty Greene, Florence Kuhnley, Gertrude Noonan, Clark Heist, Francis Churella, Jack McCormick, Bobby Williams, Ralph Cordell, Tom Steele, and Henry Urbine. A good time was had by all.

Dorothy Somerville, Grace Cavanaugh, and Katinka Larimer spent last Friday evening tuning in at Station WFBG, where they heard the Palmer orchestra. Kate reports that she was very much impressed by their playing. Probably there is a special reason for it.

Isobelle Rennie spent the week end at the home of Ellen Morris.

Don't forget we want some new songs and cheers for the track meet. Now's the time to think about it.

Caroline Squires, Rose Biller, Dorothy Somerville, and Katinka Larimer were disappointed last Tuesday night. They went to Benedict hoping to see a good basketball game, but when they got there they found it was cancelled.

THREE GREAT REMEDIES.

This interests those that sleep with windows closed. Dr. Kummer, of Geneva, studies the lockjaw germ and announces that one thing it can't stand is plenty of fresh air. It will resist powerful disinfectants, but collapses if you open the window and let in air.

Our three greatest remedies: Provi-dence gives us free of charge, sunlight, fresh air, fresh water, and a majority of human beings neglect all three.

A Frenchman designs a villa mounted on a turntable, arranged to follow the sun, an electric motor turning the villa slowly around. That is ingenious but not important. It is simpler to have plenty of windows, let the sun do all the turning, and keep some of the windows open.

STILL A QUESTION? Clarence Darrow, who has made murder safe for distinguished criminals, discussed with a clergyman the question asked long ago, "What is man?" as two hop-loads might discuss the nature of the express train on its way across the continent.
