

Personal service when a call goes wrong

"What number did you call, please?"

PERHAPS no question is so often asked of us as: "Why is it, after I've placed my call, that an operator sometimes comes in on the line and asks me what number I'm calling?"

May seem like inefficiency, or even carelessness or indifference.

Yet the Special Operator, who does this, is there only to be of personal service to you.

She's there to help you get the person you want when there has been a change of number or when through misunderstanding or technical fault the call has jammed.

She has at hand the sort of records which make this possible—records which to be effective must be concentrated before her.

Again, she's there to be of personal service, to help in situations where you can't help yourself—to restore service order promptly and efficiently.

The Book of Songs

Perhaps you never realized that a Bank Book is a book of songs.

Every depositor who has one of those highly prized books in his possession can tell you that just to leaf it thru and see column after column of dollars saved makes the heart sing with joy.

A dollar starts a saving account and gets you one of these books of happiness. Every dollar saved and entered in it will add another note to your hymn of happiness.

Why Firestone GUM-DIPPED TIRES Wear Longer

WE recently were given the tremendous advantage of having the mammoth Firestone factories brought to us. In Tire Educational Meetings we were shown, by means of motion pictures, charts, tire samples and complete engineering data, the details of Firestone tire design and construction—and how Firestone and Oldfield tires and tubes are made in the world's most efficient and economical rubber factories.

Firestone pioneered the original low-pressure tire and made it practical by Gum-Dipping. The motion pictures showed us how the cords of the carcass are dipped in a rubber solution, thoroughly saturating and insulating every fiber of every cord with rubber. Simple demonstrations and tests illustrated the great advantage of this process, which supplies the extra strength to withstand the extra flexing strains of low-pressure construction—one of the reasons why Firestone Gum-Dipped Tires are establishing such unheard-of mileage records.

Low Cash Prices OLDFIELD TIRES

30x3 Fabric... \$5.85
30x3 1/2 Fabric... 6.85
30x3 1/2 Cord... 7.35
29x4.40 Balloon... 8.40
32x4 Cord... 13.40
31x5.25 Balloon... 15.35
33x6.00 Balloon... 18.35

Oldfield Tubes are also priced very low

We learned why the Firestone Balloon Tread gives extra safety, comfort and long wear. We were shown why Firestone, from the very beginning, designed and continue to use the round Balloon Tread, minimizing "shoulder breaks", so destructive to tires. Excess rubber at the edges of a Balloon Tread is wasted—actually detrimental to tire mileage. In the Firestone Tread the small units and sharp projections are scientifically placed to permit easy flexing, resulting in extraordinary riding comfort.

Come in and let us put a set of these Gum-Dipped Tires on your car—you can forget about tire trouble. Quality is higher than ever before—prices are lowest in history. Buy now!
