STORY FROM THE START Malet.'

From the comfortable financial situation to which he had been born, Peter Milman, American sentleman of the old school, and last of his family, is practically reduced to penury through the misfortune of a friend, Hazen Brewer, whom he had unwisely trusted. Learning of Brewer's sui-cide, which means the destruction of his last hope, Milman engages a French butler, Achille Lutry, who speaks no English, and is to replace Sneed, servant of long standing. By Lutry, Milman sends letters to Prof. Fleming Bradney, Floyd Malet and Nee-land Barnes, men whom the world has classified as fallures, once of high position. In response, once of high position. His offer was soon forgotten." Fleming Bradney made a gesture almost of despair. "Somebody sot at my papers and altered figures and estimates until even the faculty which wanted to believe in me, believed me guilty. I would not explain. I had the hot anger that innocence feels when it is accused of treachery to its ideals. It was kept out of the papers for the sake of the university, but I was done with. Naturally I fought, enlisted friends, and even lawyers, but I had no money
