tending the oratorios and operas. The really inspiring melodies are chear and universal, and are as audible to the poor man's son as to the rich man's. Listening to the harmonies of the universe is not allied to dissipation. My neighbors have gone to the vestry to hear Ned Kendal, the bugler tonight, but I am come forth to the hills to hear my bugler in the hori zon. I can forego the seeming ad vantages of cities without misgiving No heavenly strain is lost to the ear that is fitted to hear it .- Thoreau.

**Aquarium Cement** 

Cement for panes in aquariums produced from litharge and glycerin The former must be as finely pow dered as possible and the glycerin very condensed, of a sirupy consist ency and limpid. Mix the two ingredi ents into a semi-liquid paste coat the places, or pour the tough mass into the respective cavity, and press into it the part to be cemented on. The surplus oozing out must be remove at once and the place cleaned, as the putty hardens very rapidly.

Found at Last

The harrassed-looking man was be ng shown over some works. "That machine," said his guide, "does the work of 30 men."

The man smiled glumly. "At last," he said, "I have seen what my wife should have married."

Weird and Wonderful

Biskra Girls' Dances In Biskra one hears the sound of the African tom-toms and the playing of pipes, the tapping of the drums, all night long, writes Lillian Genth, in the American Art Magazine. The street of the Ouled Nails is not only the most interesting street in Biskra but the most interesting street I have ever seen in my life. The green over hanging balconies, the many notes of color in the dresses of the girls, the gleam of the gold coins on their bodies and the clank of their anklets and bracelets as they walk down the street make a barbaric spectacle.

At night when the girls have their dances in the little coffee houses in the street of the Ouled Nails, it is a most interesting sight. Every one seems absorbed in the dance. The attendants and the audience sit around in a ring on their haunches, sipping mint tea and coffee, calling to the girls and dancers who sit on a platform before you.

Each awaits her turn to come down to her dance with the confidence of a prima donna on the opera stage. The dance is very wonderful. First the gyrations of the neck, the rest of the body held absolutely rigid. Then the quivering of the shoulders with the rest of the body rigid. The hum and the din of the little cafes become very exciting. These Ouled Nails dancers. daughters of the Nile, are often murdered for their gold.

## Conceit and Timidity Bars to Advancement

Henry Ward Beecher once called conceit "the most incurable disease known to the human soul." Conceit, however, is not to be con-

fused with pride, self-respect or selfconfidence. There is merit in these qualities and many a man of limited abilities has stamped and pounded his way to the seats of the mighty. But the conceited man moves in

quite a different realm. His is simply an unreasoning, unfounded opinion of his own importance. He is a giant in a world of pygmies.

Many men fail because of timidity and modesty. They secretly tell them-selves that they don't amount to deeds. They slink into the hidden recesses of obscurity of complete fail-

There is a sane middle ground upon which those who get anywhere worth while in life must ever stand. Neither conceit nor timidity will carry anyone Honesty is the best policy even in

appraising one's own talents.-Thrift Magazine

Berlin's Many Mills The Berliner on the whole knows

little about his drinking water except that it ranks among the best and purest of any capital. Most people living there think it is taken from the many lakes surrounding Berlin, But this is not the case. With the exception of 3 per cent, writes a Christian Science Monitor correspondent, the eitire water supply of Berlin is obtained from wells, some reach as far down into the earth as 100 meters.

The consumption of water in the summer reaches 500,000 cubic meters daily, but the water works are capable of supplying even more than thatnamely, 740,000 cubic meters daily, so that an emergency can easily be met. Next year they will even be in a position to produce 800,000 cubic meters daily.

Books Must Have Air Recent tests by the United States

bureau of chemistry analyzing a large number of worn leather bookbind ings, show that leather books need pure air and deteriorate when exposed to harmful sulphurous and acid ic impurities. Backs of leather books deteriorate quicker than the sides because ordinarily they are more exposed to light and impure air, the tests reveal. To prolong the life of treasured leather bindings, steps should be taken to prevent their deterioration through the absorption of atmospheric impurities, the bureau Certain coatings and finishes, notably neat's foot and castor oil, are stated to be excellent for the

Hard to Duplicate In a Colorado town was a man too

poor to indulge in any luxuries other than a superabundance of children. After the coming of a number of singles and doubles a loving but unreasonable wife presented him with triplets-three girls-and he sought for some family to adopt them. A neighbor was rather inclined to

take them, but his good wife thought one would perhaps be enough. They were talking it over before their little daughter, who said: "Why don't we take one of them-or don't they want to break the set?"

Inexcusable Mistake There is a delightful old Irish wom-

an who keeps a corner fruit stand in a Western town. One day a gentleman disposed to be facetious took up a fine melon from her stall, and said gravely: "You have pretty good apples in this state; but where I come from we have them twice that size." The old lady looked up from her

stool, surveyed the joker coolly and replied in a tone of pity: "Ah, what for should I be wastin' me breath to talk to wan that takes our gooseberries for apples!"

are troubling public health officials a this time is heart disease. The increas in deaths from this cause have been to consistently on the upward slant to as sume an attitude of indifference toward t,' said Dr. Theodore B. Appel, Secretary SALLY was old-fashloned enough to feel that even when a girl found herself really in love, she had no busi-

it, 'said Dr. Theodore B. Appel, Secretar of Health, today.

"There are so many predisposing cause to the impairment of the heart that a geteralized statement regarding it is difficult to make. However, if bad actin hearts were the werst hearts the que tion would assume more or less simplicity. But just the opposite is true. Heart the behavior of which is consciously ba are frequently suffering only from fundare frequently suffering only from fundare frequently.

sally had even met Tom Drew, when she hadn't any idea that she really would fall in love.

Madelaine—that was Sally's roommate—had said: "It might happen that a girl fell in love with a certain man who hadn't fallen in love merely because he had never thought of it. In the old days girls often didn't fall in love until after some admirer had made love to them and in a way roused their latent feelings. After an honest-to-goodness proposal and a few kisses those old-fashioned girls were often terribly in love, got married and lived happily ever after. Well, there's no reason why the same thing mightn't happen with a man. Besides, it isn't at all honest or frank or up ty date not to tell a man you like him terribly if you really do."

That is what Madelaine had said, and now that Sally had fallen really in love with Tom Drew she remembered it. Still, she wasn't so ultra modern as Madelaine. But truly the idea of actually proposing to Tom struck her as utterly preposterous.

She was turning over the situation in her mind as she sat propped up against the lounge pillows in the room she shared with Madelaine in the college dormitory. Madelaine and three other girls on the same corridor were playing bridge and Sally was going through the gestures of studying for a history quiz. But, of course, she wasn't—she was thinking of Tom and wondering what she ought to do.

Just then she heard Helen sitting.

Just then she heard Helen sitting.

Just then she heard Helen sitting at the card table saying: "I haven't

of doubt—" Helen was, of course, referring to the way she should play her bridge hand, but the remarks so exactly applied to her own state of mind that Sally listened from her year.
"Adl these rules are important. It wil

"All these rules are important. It will not pay to disregard any of them. But whatever you do be sure to carry out rule number eight. A visit to your doctor, who is capable of locating deteriorating heart tendencies long before you will ever be conscious of them, may add many years to your life. Take your heart, therefore, to your doctor for examination. And thus thwart its possible in attention of taking you on a long. long journey. Have a heart. "Only one thing to do," offered Madelaine at the table. "When in And so the game went on, and as Sally sat there trying to study she

MRS ANNA MCALARNEY

The next day came a letter from Sally's brother. He and Tom were Mrs. Anna McCarney aged 71 years, nother of James McAlarney, of St. Bene-ict, died at the home of her daughter, Irs. Warren H. Kephart, of Curwenpassing through the college town on their way to some sort of business convention. They would get there convention. They would get there the next Saturday and have time for luncheon and maybe a show that afternoon with dinner and a little dancing afterwards. Sally's brother asked Sally to provide a good-looking girl for him and added: "You'll do for Tom, I suppose." No letter from Tom, nothing to indicate that he had thought much about the proposed visit. Still he was coming, and Sally was thrilled.

Mrs. Warren H. Kephart, of Curwensville, sville, on Tuesday evening of last week svi was thrilled.

At luncheon that Saturday—Madelaine and Tom, Sally and Sally's brother—the conversation chanced to center about bridge.

"Speaking of bridge," Sally began cautiously, "what is Madelaine's

"Speaking of bridge," Sally began cautiously, "what is Madelaine's

trump suit? In other words, what VINCENT GAYDOR should you say was Madelaine's strong-"You told me to get a good-looking girl and of course she's that, but do you think that she is a really truly vamp, or terribly clever or awfully
