Virginia Restores Historic Chamber

hall of the house of delegates at Rich of Virginia, where his expedition vir mond, which has perhaps been the tualty started indicted him, and his scene of more events of prime importance than any other room in the South, is undergoing complete restoration after long neglect.

The great hall with its classic colomes and cornices served as a gathering place for the representatives of the people for more than a hundred years. But in the early part of the present century it became evident that the structure for which Thomas Jef ferson had drawn up plans and made a model while in France was no longex adequate for the needs of the state \$2 1904 and 1905 wings were added. in which new quarters were provided of the house of delegates became a enuseum for the state's agricultural met. Here Gen. Robert E. Lee reexhibits. At its 1926 session, however, the general assembly decided the hall deserved a fate more in keep ing with its history, and the work of he had been shot accidentally by one restoration then authorized is now ap

proaching completion. Stirring debates, grave crises and picturesque events have gone to the making of the hall's history. All the Constitutional conventions were held there, and there Virginia voted rati fication on June 25, 1788. The hall was the scene of the trial of Aaron Burr for treason, with Joha Marshall presiding, in 1807. The former vice president had been at mysterious

being turned back many years in Virto the Union of the great Mississippi ginia's aged capitat building. The old valley. A grand jury for the District case came up before the Supreme court, sitting in Richmond.

The crowd of spectators was so gre ' that court had to adjourn to the more commodious hall of the house of delegates. For months the crowd gathered at each session to follow the fortunes of the man whom Winfield Scott described later: "There he stood in the hands of pow er, on the brink of danger, as com posed, as immovable as one of Cano va's living marbles." Burr was even tually acquitted.

The convention which passed the art'cles of secession, precipitating the for the legislature; and the old hall Civil war, sat in this chamber, and here also the Confederate congress ceived formal command of the Confederate forces, and here Gen. Stonewall Jacks n's body lay in state after of his own men at the Battle of Chan-

On April 27, 1870, a calamity oc curred in the hall that has peopled its memories with ghosts ever

"Sad, sad, indeed, is the duty of the chronicler of the events and ferrible scenes in our state capitol on yesterday," runs an account of the time. "Unprecedented in their awful results, heartrending in their every schemes in the West, out of which, it entire city, we almost halt in palsied was charged, he designed to evolve horror. To describe it would be beyond the power of man; and with those who witnessed it its recollect a twinkling 350 persons in a mass of tion will remain indelibly vivid as

long as life shall last."
It was the day when the Court of appeals, meeting in the chamber hove the hall, was to render deision as to whether a citizen of Richmond elected mayor under the re-cently passed "enabling act" was entitled to the office or whether the military appointee of reconstruction times, a one-time camp follower of the federal armies, had a right to hold on. Everybody who could squeeze into

GREATNESS AND SLANDER

By THOMAS ARKLE CLARK Dean of Men, University of

ONE of the most interesting situations in biographical literature within recent years is the tendency of the biographer to unearth incidents of disreputable character about the men whose greatness in history we have been accustomed to revere. It had its beginning in England first, as recall, but soon spread to our

American heroes. Washington, who since we first heard of him has been held up to every school boy as a model of propriety and veracity, has been shown by his recent biographer to have had all sorts of vulgarities and dissipa tions. Franklin and Lincoln and Webster and a host of others less noted. perhaps, have been featured as 'ar from the perfect men that we were wont in our childhood to think them. We measure buildings by the shadows they cast and great hen by the slan

hundred feet high which traveled 400 niles an hour. Two months before it exploded in

extinct volcano.

Hemp was grown in China as early as 2,800 years before Christ.

883 Krakatoa was regarded as an Cornelia Storrs Adair is the new president of the National Education No person who saw the eruption association. Miss Adair, who is a nalived to tell the story. It snuffed out tive of West Virginia, is the 30,000 lives.

classroom teacher to become president of the association since it was organized in 1857. She was formerly teacher of English at Bainbridge Junior high school at Richmond, Va.
