Since then he has been unable to secure another visa. Congressman Leech has been working on this case for some time and on May 29th the Department of State issued instructions to the American Consul to grant Mr. Isaac a visa. The State Highway Department recently issued permits to the county for the building of the bridges, the three old ones being one-way structures.

DANCE AT SUNSET NEXT WEDNESDAY

Ben Pollack and His Californians Said to Be Best Dance Music in America.

More words really cannot describe the quality of the dance music that is produced by "The Rags of the Nation"—Ben Pollack and His Californians, said by many to be the very best dance orchestra in America, and which has been booked by Manager Fred Luther for the next engagement at Sunset Park next Wednesday evening, June 20th.

Ben Pollack and His orchestra are among the most popular of the Victor recording artists. They came to us directly from the Black Hawk Cafe in Chicago and the Little Club in New York City. That they will appear at Sunset Park can really be heralded as a rare treat for dance and music lovers of this section. Mr. Luther tried all of last season to book this orchestra but was unsuccessful.

The coming of Ben Pollack and His Californians, will be the first testimonial of the new policy adopted by the Sunset management, to book only the best orchestras obtainable.

Dancing for this special engagement will begin at nine o'clock Eastern Standard time. You won't want to miss a single one of the entrancing numbers dispensed by this orchestra.

INVESTIGATION OF CAMBRIA'S INSANE

County Controller Henry L. Cannon is making an investigation into the more than 500 cases from Cambria County in which insane, feeble minded or otherwise afflicted people are being cared for at the expense of the county in 24 institutions in the state. While the investigation has not yet proceeded far, the County Controller has discovered several instances where the charges when near relatives are in a position to do so. Where such conditions are found, county support will be withdrawn and the relatives told to take care of the patients.

Cambria County last year spent one hundred thousand dollars for the maintenance of insane and feeble minded people in state institutions. In making his investigations the Controller will visit the hospitals scattered throughout the state and will get information desired from the various wardens and matrons who are in frequent touch with the relatives of the patients.

FIRE GUARDS AT COUNTY HOME ARE INADEQUATE

A recommendation that increased fire protection be provided at the Cambria county Home, and a suggestion that there is apparent overcrowding in the building was contained in the report of the Grand Jury, returned to President Judge Evans at Ebensburg last Friday.

The fire protection seems to be inadequate, considering the type of patients, the report, signed by Samuel H. Jack, foreman, and F. A. Saegert, secretary, says. "There should be at least 12 two and one-half gallon fire extinguishers of an improved type installed in the building, at least four to each floor."

With that exception the grand jury found the home in excellent condition considering the excessive overcrowding, the report added. "The basement should not be used for sleeping quarters, but we appreciate the fact there is no other place to put the patients."

The Children's Home was found to be in excellent condition as to buildings, surroundings and appearance of children, while the jail was given a clean bill of health, the only suggestion being that the stone work be repaired.
