RATES ON MAIL TO BE CHANGED AFTER JULY 1

Several changes in mailing rates have been announced by the Post Office department, effective July 1st. Among the new regulations is a reduction in the rates of fourth class matter which requires special handling and beginning with first of next month the postage on all matter in this class up to 2 pounds will be 2 cents; from 2 up to and including 10 pounds, 15 cents; above ten pounds, 20 cents. Herebefore all matter in the fourth class and requiring special handling, was 25 cents, regardless of weight.

An additional charge of 25 cents for each ounce will be collected on first class matter reaching the office of address short paid more than one rate, that is 2 cents. Hence is a letter is short paid only 2 cents, that amount shall be collected due upon delivery. But if a letter or other first class matter is short paid more than 2 cents, then deficient postage and additional charge of one cent for each ounce or fraction thereof shall be collected on delivery. The purpose of this is to effect a reduction in the amount of the short paid matter of the first class deposited for mailing.

Following are the new rates on fourth class matter: Seven cents on the first pound and 1 cent for each additional pound, in the first zone; second zone is the same; third zone, eight cents on first pound and four cents on each additional pound; fifth zone, 9 cents on first pound and six cents on each additional pound; sixth zone, 10 cents on first pound, and eight on each additional pound; seventh zone, 12 cents on first pound, and 10 on each additional; eighth zone, 13 cents on first pound and 12 on each additional.

For the mailing of newspapers and other matter of a similar class the rates have been reduced in some cases about one-half. The new rate requires only one cent for each two ounces up to eight ounces, whereas the old rate was two cents for each two ounces. This is in force only when sent by persons other than the publisher or news agent, there being special rates for them.

In the special delivery department mail, other than first class hereafter will receive the same handling and immediate delivery at the office of address upon pre-payment of fifteen cents for parcels not more than two ounces; 25 cents above two and including 10 ounces, and 35 cents for all above ten ounces.

Drastic changes are also instituted in the indemnity registration rates, these being of distinct advantage to the public. All matter valued up to \$50 may be sent on a fifteen cent rate in

addition to the regular postage; between \$50 and \$100, 20 cents; \$100 to \$200, 30 cents; \$200 to \$300, 30 cents; \$300 to \$400, 50 cents; \$400 to \$500, 60 cents; \$500 to \$600, 70 cents; \$600 to \$700, 80 cents; \$700 to \$800, 90 cents; \$800 to \$1,000, \$1.00.

This change gives the public the privilege of insuring matter with the post office. Herebefore it was necessary to get outside insurance on all matter in excess of \$100.

WHAT KIND OF A CAR HAVE YOU? THE STATE IS NOW DITCHING THE BAD ONES!

The Pennsylvania Department of Highways on Friday announced that the license tags of two automobiles had been revoked. This practically means that the machines are junked. The revocation of the tags was ordered by Benjamin G. Eynon, Registrar of Motor Vehicles, because the machines did not comply with the State Motor Code provisions regarding safety of machines. The owners of the cars, Eynon said, had displayed no intention of repairing their machines and placing them in a safe condition.

The cars are owned by Henry Kenner, of Scranton and Adam Kranokovich of Taylor, Pa.

Eynon declared that Kenner's car was found to be in the following condition: Front registration plate wired on; fenders very loose; rear tag not attached so it could be illuminated; brakes in poor working order and the radius rods so loose that there is practically no control of the front wheels. The report on the other car was that there was no rear light; broken muffler; bushings on front wheels very loose; headlight lenses incorrectly installed; rear registration plate broken; and bolted together; and four fenders and radius rods very loose and brakes not in working order.

One of the results of the safety save-a-life campaign promulgated by the department during April has been the receipt of information concerning a number of motor vehicles which are not equipped in accordance with the provisions of the Motor Code and are unfit and unsafe for operation, Eynon said.

Eynon pointed out that both the cars for which tags were revoked were refused official inspection stickers during the campaign and the owners have thus far refused to comply with the law.

We have suspended these registrations and the owners will not be permitted to operate these motor vehicles on our highways nor will the registration plates be restored until the vehicles are in proper condition, Eynon concluded.
