**THE REPUBLICAN TICKET.**

President.....HERBERT HOOVER  
Vice President.....CHARLES CURTIS  
United States Senator DAVID A. REED  
State Treasurer.....EDWARD MARTIN  
Auditor General.....  
.....CHARLES A. WATERS  
Judge of the Supreme Court.....  
.....WILLIAM D. PORTER  
Congress.....J. RUSSELL LEECH  
State Senator.....JAY R. SHEESLEY  
General Assembly, Second District:  
MILTON SPENCER, EDMUND  
JAMES, JOHN R. MUSSER

**THE ELECTION**

The United States, Pennsylvania and Cambria County are normally Republican. The interests of the country, state and county, have been best promoted by adhering to the Republican policies of protection and economy. Believing in party organization, we ask all Republicans to support the entire Republican ticket. The local candidates of the Republican party are capable of filling the offices to which they aspire, and are worthy of their party's support.

Heading the local ticket is J. Russell Leech, candidate for Congress from the 20th district, comprising Cambria county. He was nominated two years ago after a hard fought primary, being ably supported by his comrades of the World War, and the nwas elected over his Democratic opponent by one of the largest majorities returned for a Republican candidate in Cambria County. During his term of office representing Cambria county at Washington, he was so satisfactory that there was no opposition to him in the spring primaries this year. Mr. Leech is, therefore, the unanimous choice of the Republicans of the County and deserves their support at the General Election.

Jay R. Sheesley, the candidate for State Senator, is making his first campaign for public office and during the primaries last spring he conducted a vigorous and energetic campaign which marked him as a young man of ability and aggressiveness. Mr. Sheesley was one of the first Johnstown young men to land in France during the World War, and had an excellent record with combatant troops for over a year. Since the war he has been actively engaged in business in the city of Johnstown. It is important that Cambria County be represented by Republicans in the upper house at Harrisburg as well as at Washington.

Two of the Republican candidates for Representative in the General Assembly from the second district of Cambria county, Edmund James and Milton Spencer, have had years of experience in that legislative body. They have both been good, staunch Republicans and deserve the continued support of their constituents.

The third member from the second district is John R. Mussler, a successful merchant of Barnesboro, who by age and experience, and his knowledge of Cambria County affairs is peculiarly fitted to represent the county.

**WHERE CREDIT IS DUE**

The Patton Volunteer Fire Company has just completed a canvas of the town in search of fire hazards; they have created interest in fire prevention among our citizens and in the public schools; they are perhaps the only company of volunteer firemen in this section of the state who observed Fire Prevention week to its fullest extent.

The good work of the Patton firemen may not be noticed by most of us. But it is a credit to

our town to have an active and energetic fire department. We have noticed through the years that the Patton Fire Company has always been active. In most of the other towns hereabouts, companies have flourished by spells, then lapsed into decadence so far as organization was concerned, form time to time.

Patton can be proud of her fire company. The recent good work conducted in connection with Fire Prevention Week is but one of many of the enterprises the company conducts in a year's time, for the good of our community.

**"DOC'S DERBY."**

Perhaps one of the most awe-inspiring sights that we have seen for some time is Dr. P. J. Kelly, war-horse of Democracy in Cambria County, displaying his new "Brown Derby." We must say that the top piece is becoming. Whether "Doc" will be in style or not after next Tuesday, remains to be seen.

**HUNTERS, BE CAREFUL.**

Reports from the entire state already indicate too much carelessness by hunters in the few days of the present open season, and with opening of the rabbit season, today, matters may become worse. John B. Truman, executive secretary of the Game Commission urges hunters to take every precaution to prevent injuring themselves or the companions with them.

Special care should be exercised in shooting in the woods at the present time, he said, because few leaves have fallen. This restricts the vision of the hunter and increases the need for absolute certainty before shooting.

The commission has issued a list of twenty-two "Don't" rules for hunters, which were published in the Courier last week. It is the hope of the commission that these rules be observed.

The records of the commission show that practically all accidents could have been avoided if an honest effort had been made to stop carelessness.

Truman, who is himself an ardent sportsman, criticised the practice of pushing the safety or setting the hammer each time a hunter believes he is not certain he has sighted game. This, the records show, is one of the most deadly practices.

It is better to miss a thousand shots than to run the risk of injuring yourself or a companion. Push the safety, or set the hammer only when game is actually in sight.

**WATCH THE CHILDREN.**

There are quite a group of restless, active, little boys and girls from two to six, in Patton. They heedlessly run into danger. They are at an age that accidents of serious import happen. Let our parents bear this in mind.

In a year, in this country, sixteen hundred children between these ages burned to death. Hundreds died from poisoning. Their little hands reached out to examine and came in contact with death. It is not too late to save the lives of Patton's little children. Let all parents be careful around the house. Teach the children not to play with fire and leave no poison within their reach.

**NEWS THAT DISAPPEARS.**

The closing of the political campaign finds the newspapers crowded with pleas of the politicians, and the editorial pages crammed with communications from various contributors. Other news events are omitted and many interesting things escape notice.

This phase ought to emphasize to the erading public that news is made. Events that would draw two columns on the front page in ordinary months, get a couple of inches inside. The presidential race has the space and other things aer set aside.

As a pointed example, last week, a plane, planning a hop to Italy, attempted to get under way and crashed. If you have read your newspapers carefully you may have seen it on the inside pages. Now, compare that publicity with the beam of light that encircled Byrd, Chamberlin and others when they hopped off and what does it mean? Nothing except that the press plays up what people are interested in, and if nothing happens, the newspapers play up something and make it interesting.

**BETTER GET YOUR LICENSE**

With only eight weeks remaining until the 1929 license plates must be displayed on all motor vehicles, the state highway department announces that only a few more than 100,000 have applied for renewal. During the first few days applications rolled in at the rate of 20,000 a day, but they are now dwindling in an alarming manner. The total licenses issued in 1928 are about a million and three quarters and renewals on 1,300,000 of these will likely be wanted for the first of the year. If the bulk of these are to come in the last few weeks in December, you can rest assured the state highway department will not be in a position physically to handle the jam and the result will be that many motorists won't have a car license on January 1st. There is no extension of time. Don't wait until the last minute. Do it now.

**FOR THE GOOSE—**  
LOVE, in order to keep alive, has got to be fed with hope or fear.

A sprinklin' of masculine traits makes a better woman. Anything more than a sprinklin' makes a misfit.

All friendships that ain't founded on lovin' the other person more than yourself is on'y partnerships where each one hopes to gain some'n.

A mishaped apple might not stop a passin' automobile; but that ain't altogether a misfortune for the apple.

**FOR THE GANDER—**  
Bel'n' afraid or not bel'n' afraid is no more a man's fault or to his credit than likin' pineapples or not likin' 'em.

Love and hate is such close relations that the more a woman can make you feel the one, the more she can make you feel the other.

A guy that's got too many irons in the fire might find himself sooner or later among the irons.

A fool can't be made mad, and a smart man won't.

**Amendments on Ballot and Meaning of Them**

HERE IS SOMETHING TO SAVE AND USE AS A REFERENCE ON ELECTION DAY WHEN YOU VOTE—MEANING OF THE FOURTEEN LENGTHY PROPOSALS CONDENSED FOR YOUR HASTY PERUSAL.

The November ballot, in addition to the various offices to be voted upon, will carry a list of fourteen proposed constitutional amendments. For each voter to attempt to read the fourteen amendments in full while in the voting booth will result in a congestion in the most of the voting precincts.

In digested form, the amendments are printed herewith. Clip them and save the clipping for election day as a guide in voting.

No. 1. Providing that printing and binding for the state government, shall be done under contract, or by the state.

No. 2. Authorizing issuance of \$8,000,000 in bonds for the erection of buildings and equipment at Pennsylvania State College.

No. 3. Authorizing \$25,000,000 for the purchase of additional land for forestry purposes.

No. 4. Authorizing \$5,000,000 in bonds for the erection of a National Guard Building.

No. 5. Authorizing assembly in case of inheritance taxes to grant exemption by general laws as to subjects of taxation or amounts.

No. 6. Empowering court of quarter sessions to change boundaries of election districts under certain conditions.

No. 7. Authorizing Pittsburg to levy special assessments against property to be benefitted by public improvements.

No. 8. Prohibiting the increase of the debt of any city of the second class above ten per cent of the assessed valuation of taxable property without the consent of the electors thereof.

No. 9. Authorizing \$50,000,000 in bonds for rebuilding and improving of highways.

No. 10. Authorizing \$50,000,000 for land, building and construction of penal, delinquent and mental defective institutions.

No. 11. Providing for changing of the debt limit for Philadelphia from 10 to 14 per cent and for changing debt limit of any county from 7 to 10 per cent.

No. 12. Providing that tax laws may grant exemptions or rebates to residents or estates of residents in other states which grant exemption of rebates to residents or to estates of residents in Pennsylvania.

No. 13. Authorizing use of voting machine.

No. 14. Providing for consolidation of county poor districts, cities, boroughs and townships of county of Allegheny into consolidated city of Pittsburg.

**THE BEST OIL IN ANY CASE**

*That Something in Reserve Which Makes a Winner*

ANY runner can enter a race. But it takes stamina to cross the tape a winner. Any oil can lubricate a motor under ordinary conditions. But today's driving presents many a sudden emergency. We have our high compression motors. Terrific speeds are common. Long gruelling trips are every day occurrences with the motor humming for hours at a time. An oil needs something more than mere claims of lubrication. Sterling Oil is refined from 100% Pure Pennsylvania crude, which in its natural state possesses more qualities for heat resistance and endurance than any other oil known. In addition to this the most modern refining equipment obtainable is used to bring those qualities to their highest motor efficiency.

That is why Sterling can run a thousand miles and still have reserve left for an emergency. Nature endowed it with the qualities of a winner and refining has merely perfected them.

**STERLING MOTOR OIL**      **STERLING GASOLINE**      **STERLING ETHYL GASOLINE**

Sterling Motor Oil is scientifically refined from 100% Pure Pennsylvania Crude Oil. It is purified by a special filtration process and is free from sulphur, acid and other injurious substances. It has a minimum of carbon and a "Factor of Safety" that prevents it from breaking down and losing its lubricating qualities under extreme motor temperature.

Sterling Gasoline is carefully tested to maintain unvarying specifications insuring a uniformity of quality that will give satisfaction under all driving conditions. It is carefully balanced to give equal efficiency for both easy starting and power. Its even chain of boiling points provides complete combustion and a smooth, steady flow of power at all speeds.

With its original superior quality, easy starting and sturdy even power, Sterling Gasoline, when treated with the Edel fluid produces an exceptionally high grade Ethyl gasoline that completely eliminates fuel knocks. It also increases power, improves acceleration and gives smooth operation with greater economy. Especially recommended for the new type high compression motor.

*The new Buick is the new Style*

**Men and women on every street-- in every city and town-- are pronouncing the new BUICK, with Masterpiece Bodies by Fisher, the most beautiful automobile of the day--**

Never before in the history of motor car manufacture have the motorists of America welcomed any new automobile as they are welcoming the Silver Anniversary Buick with new Masterpiece Bodies by Fisher!

Sweeping into the market at a time when motor car lines were practically standardized--when imitation was destroying individuality--these epic Buick creations introduced an entirely new mode--

A mode of body-symmetry--of size and magnificence--of soft contours instead of straight

lines--of embossed side and hood panels involving the most costly steel paneling work employed on any car in the world! And as the weeks have passed--and the full significance of Buick's achievement has become apparent to the public--enthusiasm for this car has swelled and grown to unprecedented proportions!

Buick sales records have been broken! Production schedules have been increased again and again! The great Buick plants are working to the limit of their capacity to supply the demand.
