# When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fret-ful, or restless. Castoria was never more popular with mothers than it is today. Every druggist has it.

Mother Battles Mad Wolf. How a mother saved her children from a mad wolf has been told in reports from Visegard, Bosnia. The animal had spread terror throughout the nearby forests by attacking both children and cattle. It killed one child, then attacked the two little ones of a peasant named Tosic. Their screams brought their mother to their rescue, and though unarmed, she grappled with the infuriated beast, which left the children and attacked her, inflicting severe wounds. Tosic then rushed to his wife's aid, and there followed a fierce fight between the wolf and the family. A woodman just then appeared and dispatched the animal with an ax. The Tosics were taken to the nearest Pasteur institute for treatment.

If one is ignorant, the demagogues will get him if he doesn't watch out,

It is better to marry and be boss than never to have bossed at all.
