Ellen Terry's Forgiveness Ellen Terry had said that she 'never had to forgive anyone," adding that harsh things said to her were either richly merited or were due to stupidity. And when asked if she had "never gone to bed with a feeling of resentment to anyone," she replied most emphatically: "Never! If that were the case, one could not say the Lord's Prayer, and that would be unthinkable."-London Express.

Quart of Water Cleans Kidneys

Hurts, or Bladder is Troubling You

No man or woman can make a mis take by flushing the kidneys occasion ally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches. liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or at tended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water bere breakfast and in a few days you kidneys may act fine.
This famous salts is made from the

acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications.
