The work on the Eckenrode Dam in East Carroll township is going nicely. Chas. M. Schwab is the donor of one thousand dollars towards this project and the sportsmen of Carrolltown and Patton especially have raised a considerable sum toward the one big affair in which they are especially interested. The dam will really be a boon to the fishermen of all this section of the state when completed and it is up to all of our sportsmen to put their shoulder to the wheel financially in order that the necessary funds, still lacking one thousand dollars, may be raised.

Everything points to a hot old election in the county, this fall. We are going to elect a Judge of the Orphans Court, an additional law judge, by virtue of a bill passed by a recent session of the legislature and signed by the governor, a sheriff and numerous borough and township officers. The borough offices, of course, will create a bit of interest in Patton as well as in practically all communities in the county.

Petitions are in circulation in Patton and the north of the county, this week, urging the state highway department to provide, this summer, for the permanent construction of the road between Lantz's Mills, below Hastings, and the Clearfield county line, a highway that would give Patton and the north of the county a direct line of improved road through to Clearfield, connecting with the Old Monument Trail at Mahaffey by way of Westover. Clearfield county's part of this road will be constructed this summer and Cambria's portion of mileage, a relatively small mileage, should also be done at the same time.

When an automobile in which they were returning from a dance at Gallitzin figured in a collision with another machine in the main highway between Lilly and Cresson about 12:30 o'clock Sunday morning, Miss Inez George, 10-year-old daughter of John W. George, of Lilly, was instantly killed and Samuel Croskey, 23, of Ashville, was badly injured.

The girl's head was badly crushed. Croskey suffered severe laceration of the scalp. He is a patient at Mercy Hospital, Johnstown, where his condition is reported as fair. He is a son of Mr. and Mrs. Frank Croskey, of Ashville, and works at Gallitzin.

The machine in which Miss George and Croskey were riding was driven by Charles, of Ralphon, and Miss Agnes McCarthy, of Lilly, also was with the party. Both Pipta and Miss McCarthy escaped uninjured. The other car that figured in the fatal crash was driven by R. W. McKee, of Altoona, who also escaped injury.

Miss George is survived by her father and these brothers and sisters: Mrs. Leo Miller, of Chicago; Mrs. Patrick Bokine, of Switzvale; Ledger George, serving an enlistment in the United States Navy and at present stationed at San Pedro, Cal.; Kenneth George, of Philadelphia and Martin and George residing at home.

—WEEKLY HEALTH TALK—

"The fashionable world has no monopoly on styles and fads. American life is permeated with them. For instance, consider the food question. Thousands of people in Pennsylvania alone are following their own pet theory on the nourishment problem—indeed it has any right to be called," said Dr. Theodore B. Appel, Secretary of Health.

"Consider the man who refuses to serve potatoes even to his guests because he and his wife are dieting and then is so inconsistent as to drink two quarts of milk daily and consume all the salted peanuts of which he can get hold.

"And this fellow is by no means an exception, either. Under the fierce fire of modern propaganda many intelligent citizens have finally succumbed to an idea which in their mind somehow becomes important because it vaguely associated with the reducing game. 'Game' is used advisedly inasmuch as most people are merely playing at reduction, except that fortunately diminishing minority of silly young girls who become demoralized by starving themselves into an unhealthy condition.

"As a matter of fact there is no need for hysteria on the food question. Meat, sweets, milk, grains and their by-products should occupy their proper place in the daily menu where healthy people are concerned.

"Certainly it is true that in some disease conditions red meat and sugar, for example, are contra-indicated. But speaking generally, all types of foods are entirely safe and healthy to consume.

"Rather than to develop a complex against a certain food, such as sugar or potatoes, one should be on guard to keep a rational balance in the diet, and diet, and eat all things moderately.

America is a land of enthusiasms. And eating is notably one of them. The vast majority of people need pay little attention to fats and food propaganda. On the other hand, the general run of people do need to pay more serious attention to the quality of food they eat. That is the main point.

"Therefore, do not develop a foolish attitude against a particular food commodity merely because propagandists tell you or imply that you should do so. But eat less!"
