**P**UT Sterling Motor Oil in your crank case and Sterling Gasoline in your tank! Then you will have a real demonstration of "Perfect Team Work" between the power that propels your car and the lubrication that protects it.

Sterling Gasoline will give you amazing speed. Sterling Motor Oil will permit you to use it mile after mile with absolute safety. The same for long, steady gruelling trips. The same for

those occasions when every bit of power is needed.

Use them together! Another gasoline will not generate the limitless power in the motor that Sterling Oil is able to take care of. Or, on the other hand, another oil will not give the absolute lubricating protection that is necessary when Sterling Gasoline takes the bit between her teeth. They are both of championship calibre and have worked together gloriously for years.
