"That's a custom made roof of rock"

When you roof your house with Johns-Manville Asbestos Shingles, it's just like hoisting a light weight roof of rock into place. These shingles, moulded of asbestos and portland cement, lose none of the everlasting qualities of these materials in the process of manufacture.

They provide you with a roof that is permanent, fireproof, colorful, economical. Time cannot destroy it. Fire will not burn it. Water will not rot it. Sun will not fade its color.

Let us tell you how little it costs to provide your house with a roof of custom made rock.

Home Canning Made Easy

By MRS. WILBUR E. FRIBLEY
Household Science Institute.

SWEET CORN

Families everywhere are enjoying the great seasonal delicacy, corn-on-the-cob, and regretting that the season is all too short. But science now has taught us that with ease and accuracy we can have our own corn-on-the-cob all winter.

The long, steamy process and inaccuracy attending cold pack and boil-er methods discouraged many from trying to can the dainty ears of corn. But the pressure cooker method of corn canning avoids steam in the kitchen and assures accurate heat and shorter time in processing. Canned corn-on-the-cob to be at its best must be rather small ears—three or four inches at most—and must be in the milk stage. Old corn canned will be tough and tasteless. Care should be taken to have sweet corn for this canning, as field corn is too large and tasteless. To those who have never canned corn-on-the-cob because they fear spoilage, the United States Department of Agriculture Bulletin No. 1471, gives the following advice:

"All non-acid vegetables are best canned under steam pressure, as the temperature is much higher than the 212 degrees of boiling and can be held at an even rate under several pounds (5 to 10) pressure until sterilized.

The blanching process is much shortened and the finest product is obtained where this step is done very quickly and deftly, the ears or cut corn being packed rapidly into the sterilized jars, the rubbers and caps adjusted and the product placed in pressure cooker as quickly as possible.

Half-gallon jars or medium cans are best for canning corn-on-the-cob, although for a small family quart jars carefully packed with small ears are satisfactory. Follow directions printed for the pressure cooker carefully. They have been proven in detail by experts. The following "don'ts" should also be observed:

Do not fill jars too full whether ears or cut corn; at least an inch of space is needed at top of jar, which can be filled with water. This water will be absorbed as the corn expands.

OFFER \$5,825 IN PRIZES IN NATIONAL CANNING CONTEST
To ward off a threatened surplus of farm products in many sections and to impress more housewives with the economy and healthfulness of home canned foods, a National Canning Contest is now under way to find the best jar of canned fruit, vegetables and meats in the country. Two hundred and twenty-two cash prizes totalling \$5,825 have been hung up by the Sears-Roebuck Agricultural Foundation, including a grand sweepstakes prize of \$1,250 for the best jar of canned food entered in the contest. Any woman or girl is eligible to enter the contest, but entries must be in not later than October 1, 1929. Further information on the contest and free jar and entry blanks for sending in entries may be had by writing to Anne Williams, director, National Canning Contest, 925 S. Homan Avenue, Chicago, Ill.

FIRE PREVENTION WEEK COMING

October 6 to 13 has been set aside as Fire Prevention Week. During that time public and private organizations and authorities will make an effort to instruct citizens in the fundamentals of doing away with our terrible fire waste.

In past years the fire rate has always gone down during the week, only to rise again to "normal" immediately after. It is the old case of a lesson going in one ear and out the other. Fire is perhaps the greatest single menace to progress we must face. Every year it destroys property which, in terms of monetary value, would support whole governments, cover the country with paved highways, provide greater educational facilities or do any numbers of other great services. And on top of this must be placed the still greater destruction in human life. During Fire Prevention Week we will learn of the danger of neglected wiring, carelessly disposed of matches or cigarettes, piles of refuse, poor building construction and so on. But unless our citizens carry the lesson learned through the other 51 weeks of the year nothing will be gained. Make Fire Prevention Week the start of a Fire Prevention Year.

Meet Me AT ED SOLOMON'S CONFECTIONERY any time, and help enjoy the refreshing flavor of a JUMBO ICE CREAM SODA. "You'll like it."

Marquette

DELIVERS PERFORMANCE THAT ONLY BUICK BUILDS

Into the Marquette, Buick has built an extra margin of every quality that makes an outstanding leader. On the road the brilliant performance of this swift, smart new six is unmatched by that of any other car of comparable price. Nowhere in the thousand-dollar field can you find such thrilling response, such effortless speed, such big reserves of power.

Only Marquette with its priceless background of Buick craftsmanship can offer such superlative performance at moderate cost. Only Marquette in the thousand-dollar class has an engine of 212.8 cubic inch piston displacement. Marquette alone provides the extra endurance and extraordinary economy of operation that Buick alone knows how to build.

And this handsome new six has even more to offer than supreme performance and economy! In its class, Marquette is the only car with the remarkable new waterproof, dustproof, wearproof upholstery and the wonderful new non-glare windshield. A host of other exceptional features contributes to its completeness: Dustproof, tilt-ray headlights. Four Lovejoy hydraulic shock absorbers. Big, smooth, fully-enclosed brakes. Airplane-type-stepped-size bearings. A completely sealed engine. Beautiful, harmonizing finish, inside and out. Perfect fittings and appointments.

Here is one of the smartest cars on the road... setting the style with new, low-slung, faultlessly tailored Bodies by Fisher... and providing performance unmatched in the moderate-price field. See it—drive a Marquette today and know why the world is saying: "A GREAT PERFORMER!"
