Save on the Budget Plan

Ask any man who has made a financial success in life how he accomplished it. His answer will be, "By Saving." He did not spend every cent he made, but built up a fund which was available when he needed it for business purposes. He is no different than you, except that you must learn the saving habit. Save on the budget plan—a certain amount each week going into your savings account. You will be surprised how it will grow and earn more money for you.

JOSEPH R. GRUNDY SAYS PENNA. OVERSHADOWS 25 OTHER STATES IN MANUFACTURE AND INDUSTRY

Table Shows 22 in Their Total Income Contributions Nearly \$5,000,000 Less Than Keystone State Alone. Some Agricultural Statistics.

Washington.—In his statement submitted to the Senate Lobby Investigating Committee, Joseph R. Grundy incorporated tables which revealed Pennsylvania not only as a manufacturing State but likewise as one of the leaders in agriculture. It

also is shown in one of the tables that the value of Pennsylvania's manufactured products is approximately equal to that of 25 other States combined.

In another table is shown the number of wage earners and the wages

paid in Connecticut, Illinois, Massachusetts, New Jersey, New York, Ohio and Pennsylvania as compared to Arizona, Arkansas, South Dakota, Idaho, Mississippi, Montana and Wisconsin.

As shown in the following table, the value of Pennsylvania's manufactured products is approximately equal to that of 25 other States combined:

THE GAME MUST EAT TO LIVE

On Friday, November 1st the small game season again opens in Pennsylvania and an army of 700,000 hunters will take to the fields and mountains. And there will be lots of game for their bags this season.

But! What about next season, and other seasons to come? We are on the verge of a hard winter and this together with the fact that there is hardly any food left now for our squirrels, turkeys, quail, etc., should awaken every hunter to the immediate need for placing food for these desirable creatures.

If every hunter who goes afield would take only one pound of scratch feed in the pocket of his hunting coat and scatter it in likely places, it would mean the saving of hundreds of game birds and animals. Placing of food will also relieve damage to crops in many sections. Even now the squirrels are literally carrying away the corn fields and the bears are forced into open territory where they prey upon sheep and destroy hives of bees.

The Game Commission is already feeding in many places two months ahead of the usual time, and we shall have to spend at least three times as much as ever before for feeding game this winter—money that we should have been happy to use for the purchase of more game for the state. But we must preserve what game we have before we undertake any more. And with the utmost we can do, at least fifty per cent of the game in the state will be lost by starvation this winter unless many, many persons help out voluntarily and faithfully. As we
