in getting out of jail. Doctor Loope lay flat on his back, the two telephones within easy reach letter files at the side of his bed, a checkbook on the covers, magazines, papers, cigarettes and a radio at hand. And there he directs almost innumerable enterprises—aiding individuals to overcome physical handicaps. The physician picked up a specially framed mirror and focussed it on his guests. He is unable to turn his head, but he can move his eyes and arms. Thus he is able to follow the move-

Under the general title of "sunshine industries," Doctor Loope is the directing genius behind a wheel chair store, a repair store, is building up a fund for an industrial home for shutins and arranges hundreds of programs for invalids.

The industrial home-where those aiding themselves would be able to live close to their work-is his big

In addition to that work, Doctor Loope finds positions for those who have been handicapped. He distributes radios, gives advice, acts as father confessor to hundreds of persons, advises as a physician and arranges for medical attention.

His telephone rang constantly during the interview.

The soldier was paroled to his custody, then a hysterical woman tele-phoned. Calm tones replied to shrill voice, and then, ironically, an organization that had obtained his telephone number called to ask him to buy two tickets to a dance.

The doctor is not a wealthy man, in fact he frequently encounters difficulty in obtaining funds for his many enterprises, in addition to those needed for himself.

For years after he was stricken, the doctor related, "I felt I was terribly abused." Then he adopted the philosophy of "Sunshine and Smiles," the title of a column he conducts for shut-ins in the Seattle Star.

"I don't preach. I serve," he said.
"Help the shut-in to help himself—to keep himself away from his troubles."

It is customary in most systems of filing to file behind the index letter. such institutions.

Doctor Loope is no invalid. He is more healthy mentally by far than millions who have complete use of their bodies.

Dr. Caldwell loved people. His years of practice convinced him many were ruining their health by careless selection of laxatives. He determined to write a harmless prescription which would get at the cause of constipation, and correct it. Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture
